SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the Quarterly Period Ended June 30, 2025
OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from to
Commission File No. 000-17948

ELECTRONIC ARTS INC.

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

209 Redwood Shores Parkway
Redwood City California
(Address of principal executive offices)

94-2838567
(I.R.S. Employer
Identification No.)

94065

(Zip Code)

(650) 628-1500

(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

<u>Title of Each Class</u>	<u>Trading Symbol</u>	<u>Name of Each Exchange on Which Registered</u>
Common Stock, \$0.01 par value	EA	NASDAQ Global Select Market

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	<input checked="" type="checkbox"/>	Accelerated filer	<input type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/>	Smaller reporting company	<input type="checkbox"/>
Emerging growth company	<input type="checkbox"/>		<input type="checkbox"/>

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of July 30, 2025, there were 250,207,303 shares of the Registrant's Common Stock, par value \$0.01 per share, outstanding.

ELECTRONIC ARTS INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

(1) DESCRIPTION OF BUSINESS AND BASIS OF PRESENTATION

Electronic Arts is a global leader in digital interactive entertainment. We develop, market, publish and deliver games, content and services that can be experienced on game consoles, PCs, and mobile devices. We create innovative games and experiences that deliver high-quality interactive entertainment and drive engagement across our global network of hundreds of millions of players. Through our live services offerings, we offer high-quality experiences designed to provide value to players and extend and enhance gameplay. These live services include extra content, subscription offerings and other revenue generated in addition to the sale of our full games. We are focusing on building games and experiences that grow the global online communities around our key franchises; deepening engagement through connecting interactive storytelling to key intellectual property; and harnessing our communities to grow in, around, and beyond our games.

Our fiscal year is reported on a 52- or 53-week period that ends on the Saturday nearest March 31. Our results of operations for the fiscal year ending March 31, 2026 contains 52 weeks and ends on March 28, 2026. Our results of operations for the fiscal year ended March 31, 2025 contained 52 weeks and ended on March 29, 2025. Our results of operations for the three months ended June 30, 2025 contained 13 weeks and ended on June 28, 2025. Our results of operations for the three months ended June 30, 2024 contained 13 weeks and ended on June 29, 2024. For simplicity of disclosure, all fiscal periods are referred to as ending on a calendar month end.

The Condensed Consolidated Financial Statements are unaudited and reflect all adjustments (consisting only of normal recurring accruals unless otherwise indicated) that, in the opinion of management, are necessary for a fair presentation of the results for the interim periods presented. The preparation of these Condensed Consolidated Financial Statements requires management to make estimates and assumptions that affect the amounts reported in these Condensed Consolidated Financial Statements and accompanying notes. Actual results could differ materially from those estimates. The results of operations for the current interim periods are not necessarily indicative of results to be expected for the current year or any other period.

These Condensed Consolidated Financial Statements should be read in conjunction with the Consolidated Financial Statements and Notes thereto included in our Annual Report on Form 10-K for the fiscal year ended March 31, 2025, as filed with the United States Securities and Exchange Commission (“SEC”) on May 13, 2025.

Recently Issued Accounting Standards

In December 2023, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2023-09, *Income Taxes (Topic 740): Improvement to Income Tax Disclosures*. The amendments further enhance income tax disclosures, primarily through standardization and disaggregation of rate reconciliation categories and income taxes paid by jurisdiction. This ASU is effective for our annual report for fiscal year 2026 and should be applied either prospectively or retrospectively. We are currently evaluating the impact of this ASU on our disclosures within the Consolidated Financial Statements.

In November 2024, the FASB issued ASU 2024-03, *Income Statement - Reporting Comprehensive Income - Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses*, which requires additional, disaggregated disclosure about certain income statement line items. This ASU is effective for our annual report for fiscal year 2028 and interim periods thereafter on a retrospective or prospective basis, with early adoption permitted. We are currently evaluating the timing of adoption and impact of this ASU on our disclosures within the Consolidated Financial Statements.

In July 2025, the FASB issued ASU 2025-05, *Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses for Accounts Receivable and Contract Assets*. This amendment introduces a practical expedient for the application of the current expected credit loss (“CECL”) model to current accounts receivable and contract assets. The amendment is effective beginning in the first quarter of fiscal year 2027 on a prospective basis, with early adoption permitted. We are currently evaluating the timing of adoption and impact of this amendment on our Condensed Consolidated Financial Statements and related disclosures.

(2) FAIR VALUE MEASUREMENTS

There are various valuation techniques used to estimate fair value, the primary one being the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining fair value, we consider the principal or most advantageous market in which we would transact and consider assumptions that market participants would use when pricing the asset or liability. We measure certain financial and nonfinancial assets and liabilities at fair value on a recurring and nonrecurring basis.

Fair Value Hierarchy

The three levels of inputs that may be used to measure fair value are as follows:

- *Level 1.* Quoted prices in active markets for identical assets or liabilities.
- *Level 2.* Observable inputs other than quoted prices included within Level 1, such as quoted prices for similar assets or liabilities, quoted prices in markets with insufficient volume or infrequent transactions (less active markets), or model-derived valuations in which all significant inputs are observable or can be derived principally from or corroborated with observable market data for substantially the full term of the assets or liabilities.
- *Level 3.* Unobservable inputs to the valuation methodology that are significant to the measurement of the fair value of assets or liabilities.

Assets and Liabilities Measured at Fair Value on a Recurring Basis

As of June 30, 2025 and March 31, 2025, our assets and liabilities that were measured and recorded at fair value on a recurring basis were as follows (in millions):

	As of June 30, 2025	Fair Value Measurements at Reporting Date Using			Balance Sheet Classification
		Quoted Prices in Active Markets for Identical Financial Instruments (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

(a) The Deferred Compensation Plan consists of various mutual funds. See [Note 15](#) in our Annual Report on Form 10-K for the fiscal year ended March 31, 2025, for additional information regarding our Deferred Compensation Plan.

(3) FINANCIAL INSTRUMENTS

Cash and Cash Equivalents

As of June 30, 2025 and March 31, 2025, our cash and cash equivalents were \$1,518 million and \$2,136 million, respectively. Cash equivalents were valued using quoted market prices or other readily available market information.

Short-Term Investments

Short-term investments consisted of the following as of June 30, 2025 and March 31, 2025 (in millions):

	As of June 30, 2025				As of March 31, 2025			
	Cost or Amortized Cost	Gross Unrealized		Fair Value	Cost or Amortized Cost	Gross Unrealized		Fair Value
		Gains	Losses			Gains	Losses	
Corporate bonds	\$ 40	\$ —	\$ —	\$ 40	\$ 46	\$ —	\$ —	\$ 46
U.S. Treasury securities	21	—	—	21	12	—	—	12
Foreign government securities	4	—	—	4	4	—	—	4
Asset-backed securities	47	—	—	47	50	—	—	50
Short-term investments	<u>\$ 112</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ 112</u>	<u>\$ 112</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ 112</u>

The following table summarizes the amortized cost and fair value of our short-term investments, classified by stated maturity as of June 30, 2025 and March 31, 2025 (in millions):

	As of June 30, 2025		As of March 31, 2025	
	Amortized Cost	Fair Value	Amortized Cost	Fair Value
Short-term investments				
Due within 1 year	\$ 26	\$ 26	\$ 46	\$ 46
Due 1 year through 5 years	84	84	63	63
Due after 5 years	2	2	3	3
Short-term investments	<u>\$ 112</u>	<u>\$ 112</u>	<u>\$ 112</u>	<u>\$ 112</u>

(4) DERIVATIVE FINANCIAL INSTRUMENTS

Assets or liabilities associated with our derivative instruments and hedging activities are recorded at fair value in other current assets/other assets, or accounts payable, accrued, and other current liabilities/other liabilities, respectively, on our Condensed Consolidated Balance Sheets. As discussed below, the accounting for gains and losses resulting from changes in fair value depends on the use of the derivative instrument and whether it is designated and qualifies for hedge accounting.

We transact business in various foreign currencies and have significant international sales and expenses denominated in foreign currencies, subjecting us to foreign currency risk. We purchase foreign currency forward contracts, generally with maturities of 18 months or less, to reduce the volatility of cash flows primarily related to forecasted revenue and expenses denominated in certain foreign currencies. Our cash flow risks are primarily related to fluctuations in the Euro, British pound sterling, Canadian dollar, Swedish krona, Australian dollar, Japanese yen, Chinese yuan, South Korean won, and Polish zloty. In addition, we utilize foreign currency forward contracts to mitigate foreign currency exchange risk associated with foreign-currency-denominated monetary assets and liabilities, primarily intercompany receivables and payables. The foreign currency forward contracts not designated as hedging instruments generally have a contractual term of approximately three months or less and are transacted near month-end. We do not use foreign currency forward contracts for speculative trading purposes.

Cash Flow Hedging Activities

Certain of our forward contracts are designated and qualify as cash flow hedges. To qualify for hedge accounting treatment, all hedging relationships are formally documented at the inception of the hedges and must be highly effective in offsetting changes to future cash flows on hedged transactions. The derivative assets or liabilities associated with our hedging activities are recorded at fair value in other current assets/other assets, or accounts payable, accrued, and other current liabilities/other liabilities, respectively, on our Condensed Consolidated Balance Sheets. The gains or losses resulting from changes in the fair value of these hedges are initially reported, net of tax, as a component of accumulated other comprehensive income (loss) in stockholders' equity. The gains or losses resulting from changes in the fair value of these hedges are subsequently reclassified into net revenue or research and development expenses, as appropriate, in the period when the forecasted transaction is recognized in our Condensed Consolidated Statements of Operations. In the event that the underlying forecasted transactions do not occur, or it becomes remote that they will occur within the defined hedge period, the gains or losses on the related cash flow hedges are reclassified from accumulated other comprehensive income (loss) to interest and other income (expense), net, in our Condensed Consolidated Statements of Operations.

Total gross notional amounts and fair values for currency derivatives with cash flow hedge accounting designation are as follows (in millions):

	As of June 30, 2025			As of March 31, 2025		
	Notional Amount	Fair Value		Notional Amount	Fair Value	
		Asset	Liability		Asset	Liability
Forward contracts to purchase	\$ 321	\$ 11	\$ —	\$ 463	\$ 4	\$ 7
Forward contracts to sell	\$ 1,938	\$ 1	\$ 113	\$ 1,970	\$ 20	\$ 16

The effects of cash flow hedge accounting in our Condensed Consolidated Statements of Operations for the three months ended June 30, 2025 and 2024 are as follows (in millions):

	Three Months Ended June 30,			
	2025		2024	
	Net revenue	Research and development	Net revenue	Research and development
Total amounts presented in our Condensed Consolidated Statements of Operations in which the effects of cash flow hedges are recorded	\$ 1,671	\$ 706	\$ 1,660	\$ 629
Gains (losses) on foreign currency forward contracts designated as cash flow hedges	\$ 3	\$ —	\$ 7	\$ (2)

Balance Sheet Hedging Activities

Our foreign currency forward contracts that are not designated as hedging instruments are accounted for as derivatives whereby the fair value of the contracts are reported as other current assets or accounts payable, accrued, and other current liabilities on our Condensed Consolidated Balance Sheets, and gains and losses resulting from changes in the fair value are reported in interest and other income (expense), net, in our Condensed Consolidated Statements of Operations. The gains and losses on these foreign currency forward contracts generally offset the gains and losses in the underlying foreign-currency-denominated monetary assets and liabilities, which are also reported in interest and other income (expense), net, in our Condensed Consolidated Statements of Operations.

Total gross notional amounts and fair values for currency derivatives that are not designated as hedging instruments are accounted for as follows (in millions):

	As of June 30, 2025			As of March 31, 2025		
	Notional Amount	Fair Value		Notional Amount	Fair Value	
		Asset	Liability		Asset	Liability
Forward contracts to purchase	\$ 512	\$ 2	\$ —	\$ 511	\$ 1	\$ 2
Forward contracts to sell	\$ 550	\$ 1	\$ 4	\$ 582	\$ 3	\$ 1

The effect of foreign currency forward contracts not designated as hedging instruments in our Condensed Consolidated Statements of Operations for the three months ended June 30, 2025 and 2024 was as follows (in millions):

	Three Months Ended June 30,	
	2025	2024
	Interest and other income (expense), net	
Total amounts presented in our Condensed Consolidated Statements of Operations in which the effects of balance sheet hedges are recorded	\$ 2	\$ 30
Gains (losses) on foreign currency forward contracts not designated as hedging instruments	\$ (16)	\$ 6

(5) ACCUMULATED OTHER COMPREHENSIVE INCOME (LOSS)

The changes in accumulated other comprehensive income (loss) by component, net of tax, for the three months ended June 30, 2025 and 2024 are as follows (in millions):

	Unrealized Net Gains (Losses) on Available-for-Sale Securities	Unrealized Net Gains (Losses) on Derivative Instruments	Foreign Currency Translation Adjustments	Total
Balances as of March 31, 2025	\$ —	\$ 11	\$ (98)	\$ (87)
Other comprehensive income (loss) before reclassifications	—	(90)	18	(72)
Amounts reclassified from accumulated other comprehensive income (loss)	—	(3)	—	(3)
Total other comprehensive income (loss), net of tax	—	(93)	18	(75)
Balances as of June 30, 2025	\$ —	\$ (82)	\$ (80)	\$ (162)

	Unrealized Net Gains (Losses) on Available-for-Sale Securities	Unrealized Net Gains (Losses) on Derivative Instruments	Foreign Currency Translation Adjustments	Total
Balances as of March 31, 2024	\$ —	\$ 10	\$ (82)	\$ (72)
Other comprehensive income (loss) before reclassifications	—	21	(4)	17
Amounts reclassified from accumulated other comprehensive income (loss)	—	(5)	—	(5)
Total other comprehensive income (loss), net of tax	—	16	(4)	12
Balances as of June 30, 2024	\$ —	\$ 26	\$ (86)	\$ (60)

The effects on net income of amounts reclassified from accumulated other comprehensive income (loss) for the three months ended June 30, 2025 and 2024 were as follows (in millions):

Statement of Operations Classification	Amount Reclassified From Accumulated Other Comprehensive Income (Loss)	
	Three Months Ended June 30, 2025	Three Months Ended June 30, 2024
(Gains) losses on foreign currency forward contracts designated as cash flow hedges		
Net revenue	\$ (3)	\$ (7)
Research and development	—	2
Total net (gain) loss reclassified, net of tax	\$ (3)	\$ (5)

(6) GOODWILL AND ACQUISITION-RELATED INTANGIBLES, NET

The changes in the carrying amount of goodwill for the three months ended June 30, 2025 are as follows (in millions):

	As of March 31, 2025	Activity	Effects of Foreign Currency Translation	As of June 30, 2025
Goodwill	\$ 5,744	\$ 9	\$ 4	\$ 5,757
Accumulated impairment	(368)	—	—	(368)
Total	\$ 5,376	\$ 9	\$ 4	\$ 5,389

During the three months ended June 30, 2025, we completed one acquisition that was not material to our Condensed Consolidated Financial Statements.

Acquisition-related intangibles consisted of the following (in millions):

	As of June 30, 2025			As of March 31, 2025		
	Gross Carrying Amount	Accumulated Amortization	Acquisition- Related Intangibles, Net	Gross Carrying Amount	Accumulated Amortization	Acquisition- Related Intangibles, Net
Developed and core technology	\$ 938	\$ (806)	\$ 132	\$ 933	\$ (790)	\$ 143
Trade names and trademarks	501	(362)	139	501	(351)	150
Registered user base and other intangibles	56	(56)	—	56	(56)	—
Total	\$ 1,495	\$ (1,224)	\$ 271	\$ 1,490	\$ (1,197)	\$ 293

Amortization of intangibles for the three months ended June 30, 2025 and 2024 are classified in the Condensed Consolidated Statements of Operations as follows (in millions):

	Three Months Ended June 30,	
	2025	2024
Cost of revenue	\$ 10	\$ 10
Operating expenses	17	17
Total	\$ 27	\$ 27

During the three months ended June 30, 2025 and 2024, there were no impairment charges recorded for acquisition-related intangible assets.

Acquisition-related intangible assets are generally amortized using the straight-line method over the lesser of their estimated useful lives or the agreement terms, currently ranging from 2 to 7 years. As of June 30, 2025 and March 31, 2025, the weighted-average remaining useful life for acquisition-related intangible assets was approximately 3.0 years and 3.2 years, respectively.

As of June 30, 2025, future amortization of finite-lived acquisition-related intangibles that will be recorded in the Condensed Consolidated Statements of Operations is estimated as follows (in millions):

Fiscal Year Ending March 31,

2026 (remaining nine months)	\$ 76
2027	85
2028	82
2029	28
Total	\$ 271

(7) ROYALTIES AND LICENSES

Our royalty expenses consist of payments to (1) content licensors, (2) independent software developers, and (3) co-publishing and/or distribution affiliates. Content license royalties consist of payments made to sports organizations, movie studios, and others for our use of their trademarks, copyrights, personal publicity rights, content and/or other intellectual property. Royalty payments to independent software developers are payments for the development of intellectual property related to our games. Co-publishing and distribution royalties are payments made to third parties for the delivery of products.

During the three months ended June 30, 2025 and 2024, we did not recognize any material losses or impairment charges on royalty-based commitments.

The current and long-term portions of prepaid royalties and minimum guaranteed royalty-related assets, included in other current assets and other assets, consisted of (in millions):

	As of June 30, 2025	As of March 31, 2025
Other current assets	\$ 91	\$ 55
Other assets	23	23
Royalty-related assets	<u>\$ 114</u>	<u>\$ 78</u>

At any given time, depending on the timing of our payments to our content licensors, independent software developers, co-publishing, and/or distribution affiliates, we classify any recognized unpaid royalty amounts due to these parties as accrued liabilities. The current and long-term portions of accrued royalties, included in accrued and other current liabilities and other liabilities, consisted of (in millions):

	As of June 30, 2025	As of March 31, 2025
Accounts payable, accrued, and other current liabilities	\$ 222	\$ 226
Other liabilities	19	9
Royalty-related liabilities	<u>\$ 241</u>	<u>\$ 235</u>

As of June 30, 2025, we were committed to pay approximately \$1,443 million to content licensors, independent software developers, and co-publishing and/or distribution affiliates, but performance remained with the counterparty (i.e., delivery of the product or content or other factors) and such commitments were therefore not recorded in our Condensed Consolidated Financial Statements. See [Note 11](#) for further information on our developer and licensor commitments.

(8) BALANCE SHEET DETAILS

Property and Equipment, Net

Property and equipment, net, as of June 30, 2025 and March 31, 2025 consisted of (in millions):

	As of June 30, 2025	As of March 31, 2025
Computer, equipment and software	\$ 1,040	\$ 1,033
Buildings	390	379
Leasehold improvements	234	229
Equipment, furniture and fixtures, and other	113	109
Land	66	66
Construction in progress	26	21
	<u>1,869</u>	<u>1,837</u>
Less: accumulated depreciation	(1,277)	(1,251)
Property and equipment, net	<u>\$ 592</u>	<u>\$ 586</u>

Depreciation expense associated with property and equipment was \$52 million and \$51 million for the three months ended June 30, 2025 and 2024, respectively.

Accounts Payable, Accrued, and Other Current Liabilities

Accounts payable, accrued, and other current liabilities as of June 30, 2025 and March 31, 2025 consisted of (in millions):

	As of June 30, 2025	As of March 31, 2025
Accounts payable	\$ 92	\$ 105
Accrued compensation and benefits	382	486
Accrued royalties	222	226
Deferred net revenue (other)	93	94
Operating lease liabilities	69	67
Other accrued expenses	392	297
Sales returns and price protection reserves	56	84
Accounts payable, accrued, and other current liabilities	<u>\$ 1,306</u>	<u>\$ 1,359</u>

Deferred net revenue (other) includes the deferral of licensing arrangements, subscription revenue, and other revenue for which revenue recognition criteria has not been met.

Deferred net revenue

Deferred net revenue as of June 30, 2025 and March 31, 2025 consisted of (in millions):

	As of June 30, 2025	As of March 31, 2025
Deferred net revenue (online-enabled games)	\$ 1,334	\$ 1,700
Deferred net revenue (other)	93	94
Deferred net revenue (noncurrent)	63	72
Total deferred net revenue	<u>\$ 1,490</u>	<u>\$ 1,866</u>

During the three months ended June 30, 2025 and 2024, we recognized \$1,065 million and \$1,119 million of net revenue, respectively, that were included in the deferred net revenue balance at the beginning of the period.

Remaining Performance Obligations

As of June 30, 2025, revenue allocated to remaining performance obligations consists of our deferred net revenue balance of \$1,490 million. These balances exclude any estimates for future variable consideration as we have elected the optional exemption to exclude sales-based royalty revenue.

(9) INCOME TAXES

On July 4, 2025, the United States enacted the One Big Beautiful Bill Act (“OBBB”) which extended or modified certain corporate tax provisions under the 2017 Tax Cuts and Jobs Act (“TCJA”). The impacts of the OBBB are not included in our operating results for the three months ended June 30, 2025. The OBBB modified certain business deductions, including allowing for immediate expensing of U.S. research & development expenditures, effective in our current fiscal year. The OBBB also modified various international tax provisions which were set to change or expire after 2025 under the TCJA. Such modifications, including U.S. taxation of profits derived from foreign operations and associated foreign tax credit limitations, are effective in our fiscal year 2027. We are evaluating the impact of the OBBB on our Condensed Consolidated Financial Statements.

The provision for income taxes for the three months ended June 30, 2025 is based on our projected annual effective tax rate for fiscal year 2026, adjusted for specific items that are required to be recognized in the period in which they are incurred. Our effective tax rate for the three months ended June 30, 2025 was 26 percent, as compared to 29 percent for the same period prior year. The decrease in effective tax rate year-over-year is primarily due to higher excess tax benefits from stock-based compensation compared to prior year.

We are subject to income tax examinations in various jurisdictions with respect to fiscal years after 2015. The timing and potential resolution of income tax examinations is highly uncertain. While we continue to measure our uncertain tax positions, the amounts ultimately paid, if any, upon resolution of the issues raised by the taxing authorities may differ materially from the amounts accrued. It is reasonably possible that material reduction of unrecognized tax benefits may occur within the next 12 months, which would impact our effective tax rate. The actual amount could vary significantly depending on the ultimate timing and nature of any settlements and tax interpretations.

(10) FINANCING ARRANGEMENTS

Senior Notes

In February 2021, we issued \$750 million aggregate principal amount of 1.85% Senior Notes due February 15, 2031 (the “2031 Notes”) and \$750 million aggregate principal amount of 2.95% Senior Notes due February 15, 2051 (the “2051 Notes”). Our proceeds were \$1,478 million, net of discount of \$6 million and issuance costs of \$16 million. Both the discount and issuance costs are being amortized to interest expense over the respective terms of the 2031 Notes and the 2051 Notes using the effective interest rate method. The effective interest rate is 1.98% for the 2031 Notes and 3.04% for the 2051 Notes. Interest is payable semiannually in arrears, on February 15 and August 15 of each year.

In February 2016, we issued \$400 million aggregate principal amount of 4.80% Senior Notes due March 1, 2026 (the “2026 Notes”). Our proceeds were \$395 million, net of discount of \$1 million and issuance costs of \$4 million. Both the discount and issuance costs are being amortized to interest expense over the term of the 2026 Notes using the effective interest rate method. The effective interest rate was 4.97%. Interest is payable semiannually in arrears, on March 1 and September 1 of each year.

The carrying and fair values of the Senior Notes are as follows (in millions):

	As of June 30, 2025	As of March 31, 2025
Senior Notes:		
4.80% Senior Notes due 2026	\$ 400	\$ 400
1.85% Senior Notes due 2031	750	750
2.95% Senior Notes due 2051	750	750
Total principal amount	\$ 1,900	\$ 1,900
Unaccreted discount	(5)	(5)
Unamortized debt issuance costs	(11)	(11)
Net carrying value of Senior Notes	\$ 1,884	\$ 1,884
Fair value of Senior Notes (Level 2)	\$ 1,514	\$ 1,511

As of June 30, 2025, the remaining life of the 2026 Notes, 2031 Notes and 2051 Notes is approximately 0.7 years, 5.6 years, and 25.7 years, respectively.

The Senior Notes are senior unsecured obligations and rank equally with all our other existing and future unsubordinated obligations and any indebtedness that we may incur from time to time under our Credit Facility.

The 2026 Notes, 2031 Notes and 2051 Notes are redeemable at our option at any time prior to December 1, 2025, November 15, 2030, and August 15, 2050, respectively, subject to a make-whole premium. After such dates, we may redeem each such series of Notes, respectively, at a redemption price equal to 100% of the aggregate principal amount plus accrued and unpaid interest. In addition, upon the occurrence of a change of control repurchase event, the holders of each such series of Notes may require us to repurchase all or a portion of these Notes, at a price equal to 101% of their principal amount, plus accrued and unpaid interest to the date of repurchase. Each such series of Notes also include covenants that limit our ability to incur liens on assets and to enter into sale and leaseback transactions, subject to certain allowances.

Credit Facility

On March 22, 2023, we entered into a \$500 million unsecured revolving credit facility (the "Credit Facility") with a syndicate of banks. The Credit Facility terminates on March 22, 2028 unless the maturity is extended in accordance with its terms. The Credit Facility contains an option to arrange with existing lenders and/or new lenders to provide up to an aggregate of \$500 million in additional commitments for revolving loans. Proceeds of loans made under the Credit Facility may be used for general corporate purposes.

The loans denominated in U.S. dollars bear interest, at our option, at the base rate plus an applicable spread or at a forward-looking term rate based upon the secured overnight financing rate plus a credit spread adjustment of 0.10% per annum (the "Adjusted Term SOFR Rate") plus an applicable spread, in each case with such spread based on our debt credit ratings. We are also obligated to pay other customary fees for a credit facility of this size and type. Interest is due and payable in arrears quarterly for loans bearing interest at the base rate and at the end of an interest period in the case of loans bearing interest at the Adjusted Term SOFR Rate. Principal, together with all accrued and unpaid interest, is due and payable on the maturity date, as such date may be extended in connection with the extension option. We may prepay the loans and terminate the commitments, in whole or in part, at any time without premium or penalty, subject to certain conditions.

The Credit Facility contains customary affirmative and negative covenants, including covenants that limit or restrict our ability to, among other things, incur subsidiary indebtedness, grant liens, and dispose of all or substantially all assets, in each case subject to customary exceptions for a credit facility of this size and type. We are also required to maintain compliance with a debt to EBITDA ratio. As of June 30, 2025, we were in compliance with the debt to EBITDA ratio.

The Credit Facility contains customary events of default, including among others, non-payment defaults, covenant defaults, cross-defaults to material indebtedness, bankruptcy and insolvency defaults, material judgment defaults and a change of control default, in each case, subject to customary exceptions for a credit facility of this size and type. The occurrence of an event of default could result in the acceleration of the obligations under the Credit Facility and an increase in the applicable interest rate.

As of June 30, 2025, no amounts were outstanding under the Credit Facility. \$2 million of debt issuance costs that were paid in connection with obtaining this credit facility are being amortized to interest expense over the 5-year term of the Credit Facility.

Interest Expense

The following table summarizes our interest expense recognized for the three months ended June 30, 2025 and 2024 that is included in interest and other income (expense), net on our Condensed Consolidated Statements of Operations (in millions):

	Three Months Ended June 30,	
	2025	2024
Amortization of debt issuance costs	\$ —	\$ (1)
Coupon interest expense	(14)	(14)
Total interest expense	<u>\$ (14)</u>	<u>\$ (15)</u>

(11) COMMITMENTS AND CONTINGENCIES

Development, Sports Organizations and Other Content Licenses: Payments and Commitments

The products we produce in our studios are designed and created by our employee designers, artists, software programmers and by non-employee software developers (“independent artists” or “third-party developers”). We typically advance development funds to the independent artists and third-party developers during development of our games, usually in installment payments made upon the completion of specified development milestones. Contractually, these payments are generally considered advances against subsequent royalties on the sales of the products. These terms are set forth in written agreements entered into with the independent artists and third-party developers. In addition, we have certain sports organizations and other content license contracts that contain minimum guarantee payments and marketing commitments to promote the games we publish that may not be dependent on any deliverables.

These developer and content license commitments represent the sum of the cash payments for flat fees, minimum guaranteed payments, and service payments. The majority of these commitments are conditional upon performance by the counterparty. These payments and any related marketing and development commitments are included in the table below.

The following table summarizes our minimum contractual obligations as of June 30, 2025 (in millions):

	Fiscal Years Ending March 31,							
	Total	2026 (Remaining nine mos.)	2027	2028	2029	2030	2031	Thereafter
Unrecognized commitments								
Developer/licensor commitments	\$ 1,443	\$ 251	\$ 405	\$ 214	\$ 198	\$ 193	\$ 144	\$ 38
Marketing commitments	1,196	188	339	234	142	161	121	11
Senior Notes interest	656	34	36	36	36	36	36	442
Operating lease imputed interest	49	9	10	8	6	5	4	7
Operating leases not yet commenced ^(a)	18	—	1	2	2	2	2	9
Other purchase obligations	264	121	85	34	18	6	—	—
Total unrecognized commitments	3,626	603	876	528	402	403	307	507
Recognized commitments								
Senior Notes principal and interest	1,920	420	—	—	—	—	750	750
Operating leases	325	49	59	47	30	25	26	89
Transition Tax and other taxes	7	7	—	—	—	—	—	—
Total recognized commitments	2,252	476	59	47	30	25	776	839
Total Commitments	\$ 5,878	\$ 1,079	\$ 935	\$ 575	\$ 432	\$ 428	\$ 1,083	\$ 1,346

(a) As of June 30, 2025, we have entered into an office lease that is expected to commence in fiscal year 2026, with aggregate future lease payments of approximately \$18 million and a lease term of 10 years.

The unrecognized amounts represented in the table above reflect our minimum cash obligations for the respective fiscal years, but do not necessarily represent the periods in which they will be recognized and expensed in our Condensed Consolidated Financial Statements. In addition, the amounts in the table above are presented based on the dates the amounts are contractually due as of June 30, 2025; however, certain payment obligations may be accelerated depending on the performance of our operating results.

In addition to the amounts included in the table above, as of June 30, 2025, we had a net liability for unrecognized tax benefits and related interest totaling \$649 million. While it is reasonably possible that material reduction of unrecognized tax benefits may occur within the next 12 months, the actual amount could vary significantly depending on the ultimate timing and nature of any settlements and tax interpretations.

Legal Proceedings

We are subject to claims and litigation arising in the ordinary course of business. We do not believe that any liability from any reasonably foreseeable disposition of such claims and litigation, individually or in the aggregate, would have a material adverse effect on our Condensed Consolidated Financial Statements.

(12) STOCK-BASED COMPENSATION AND STOCK REPURCHASE PROGRAM

Valuation Assumptions

We recognize compensation cost for stock-based awards to employees based on the awards' estimated grant-date fair value using a straight-line approach over the service period for which such awards are expected to vest. We account for forfeitures as they occur.

The estimation of the fair value of market-based restricted stock units, stock options and Employee Stock Purchase Plan ("ESPP") purchase rights is affected by assumptions regarding subjective and complex variables. Generally, our assumptions are based on historical information and judgment is required to determine if historical trends may be indicators of future outcomes. We estimate the fair value of our stock-based awards as follows:

- *Restricted Stock Units and Performance-Based Restricted Stock Units.* The fair value of restricted stock units and performance-based restricted stock units (other than market-based restricted stock units) is determined based on the quoted market price of our common stock on the date of grant.
- *Market-Based Restricted Stock Units.* Market-based restricted stock units consist of grants of performance-based restricted stock units to certain members of executive management that vest contingent upon the achievement of pre-determined market and service conditions (referred to herein as "market-based restricted stock units"). The fair value of our market-based restricted stock units is estimated using a Monte-Carlo simulation model. Key assumptions for the Monte-Carlo simulation model are the risk-free interest rate, expected volatility, expected dividends and correlation coefficient.
- *Stock Options and ESPP.* The fair value of stock options and stock purchase rights granted pursuant to our equity incentive plans and our 2000 Employee Stock Purchase Plan, as amended, respectively, is estimated using the Black-Scholes valuation model based on the multiple-award valuation method. Key assumptions of the Black-Scholes valuation model are the risk-free interest rate, expected volatility, expected term and expected dividends. The risk-free interest rate is based on U.S. Treasury yields in effect at the time of grant for the expected term of the option. Expected volatility is based on a combination of historical stock price volatility and implied volatility of publicly-traded options on our common stock. An expected term is estimated based on historical exercise behavior, post-vesting termination patterns, options outstanding and future expected exercise behavior.

There were no ESPP shares issued during the three months ended June 30, 2025 and 2024. There were an insignificant number of stock options granted during the three months ended June 30, 2025 and 2024.

The assumptions used in the Monte-Carlo simulation model to value our market-based restricted stock units were as follows:

	Three Months Ended June 30,	
	2025	2024
Risk-free interest rate	3.9 %	4.5 %
Expected volatility	24% - 43%	23% - 43%
Weighted-average volatility	30 %	31 %
Expected dividends	None	None

Stock Options

The following table summarizes our stock option activity for the three months ended June 30, 2025:

	Options (in thousands)	Weighted- Average Exercise Prices	Weighted- Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value (in millions)
Outstanding as of March 31, 2025	6	\$ 63.51		
Granted	1	145.10		
Exercised	(1)	102.37		
Forfeited, cancelled or expired	—	—		
Outstanding as of June 30, 2025	<u>6</u>	<u>\$ 64.99</u>	2.86	\$ 0.5
Vested and expected to vest	<u>6</u>	<u>\$ 64.99</u>	2.86	\$ 0.5
Exercisable as of June 30, 2025	<u>6</u>	<u>\$ 64.99</u>	2.86	\$ 0.5

The aggregate intrinsic value represents the total pre-tax intrinsic value based on our closing stock price as of June 30, 2025, which would have been received by the option holders had all the option holders exercised their options as of that date. We issue new common stock from our authorized shares upon the exercise of stock options.

Restricted Stock Units

The following table summarizes our restricted stock units activity for the three months ended June 30, 2025:

	Restricted Stock Units (in thousands)	Weighted- Average Grant Date Fair Values
Outstanding as of March 31, 2025	7,549	\$ 133.90
Granted	3,380	149.84
Vested	(2,420)	133.22
Forfeited or cancelled	(194)	135.41
Outstanding as of June 30, 2025	<u>8,315</u>	<u>\$ 140.54</u>

Performance-Based Restricted Stock Units

Our performance-based restricted stock units vest upon the achievement of pre-determined performance-based milestones, including, but not limited to, management reporting milestones of net bookings and operating income metrics, as well as service conditions. If these performance-based milestones are not met but service conditions are met, the performance-based restricted stock units will not vest, in which case any compensation expense we have recognized to date will be reversed. Generally, the measurement periods of our performance-based restricted stock units are 3 years, with awards vesting after each annual measurement period or cliff-vesting after the completion of the total aggregate measurement period.

Each quarter, we update our assessment of the probability that the performance milestones will be achieved. We amortize the fair values of performance-based restricted stock units over the requisite service period. The performance-based restricted stock units contain threshold, target and maximum milestones for each performance-based milestone. The number of shares of common stock to be issued at vesting will range from zero to 200 percent of the target number of performance-based restricted stock units attributable to each performance-based milestone based on the company's performance as compared to these threshold, target and maximum performance-based milestones. Each performance-based milestone is weighted evenly and the number of shares that vest based on each performance-based milestone is independent from the other.

The following table summarizes our performance-based restricted stock unit activity, presented with the maximum number of shares that could potentially vest, for the three months ended June 30, 2025:

	Performance-Based Restricted Stock Units (in thousands)	Weighted-Average Grant Date Fair Value
Outstanding as of March 31, 2025	1,004	\$ 134.60
Granted	813	151.10
Vested	(266)	150.23
Forfeited or cancelled	(451)	136.91
Outstanding as of June 30, 2025	1,100	\$ 142.08

Market-Based Restricted Stock Units

Our market-based restricted stock units vest contingent upon the achievement of pre-determined market and service conditions. If these market conditions are not met but service conditions are met, the market-based restricted stock units will not vest; however, any compensation expense we have recognized to date will not be reversed. The number of shares of common stock to be issued at vesting for these awards are based on our total stockholder return (“TSR”) relative to the performance of either companies in the Nasdaq-100 (for awards granted in fiscal years 2023 and 2024) or the S&P 500 Index (for awards granted in fiscal year 2025 and going forward) (“Relative TSR”) and on absolute TSR performance measured against pre-established goals, which started in fiscal year 2025 (“Absolute TSR”), each over a three-year period. Payout with respect to the Relative TSR component ranges from zero to 200 percent of the target number of Relative TSR units granted, and payout with respect to the Absolute TSR component ranges from zero to 75 percent of the target number of the underlying base award (which is comprised of Performance-Based Restricted Stock Units and Relative TSR units). These awards cliff-vest after the completion of the three-year measurement period, contingent on the achievement of both market and service conditions.

We amortize the fair values of market-based restricted stock units over the requisite service period.

The following table summarizes our market-based restricted stock unit activity, presented with the maximum number of shares that could potentially vest, for the three months ended June 30, 2025:

	Market-Based Restricted Stock Units (in thousands)	Weighted-Average Grant Date Fair Value
Outstanding as of March 31, 2025	637	\$ 115.43
Granted	367	103.73
Vested	(34)	150.48
Forfeited or cancelled	(80)	176.70
Outstanding as of June 30, 2025	890	\$ 103.80

Stock-Based Compensation Expense

The following table summarizes stock-based compensation expense resulting from stock options, restricted stock units, market-based restricted stock units, performance-based restricted stock units, and the ESPP purchase rights included in our Condensed Consolidated Statements of Operations (in millions):

	Three Months Ended June 30,	
	2025	2024
Cost of revenue	\$ 3	\$ 4
Research and development	110	101
Marketing and sales	12	12
General and administrative	27	26
Stock-based compensation expense	\$ 152	\$ 143

For both the three months ended June 30, 2025 and 2024, we recognized \$20 million of deferred income tax benefit related to our stock-based compensation expense.

As of June 30, 2025, our total unrecognized compensation cost related to stock options, restricted stock units, market-based restricted stock units, and performance-based restricted stock units was \$1,188 million and is expected to be recognized over a weighted-average service period of 2.1 years. Of the \$1,188 million of unrecognized compensation cost, \$1,090 million relates to restricted stock units, \$66 million relates to performance-based restricted stock units, \$32 million relates to market-based restricted stock units.

Stock Repurchase Program

In August 2022, our Board of Directors authorized a program to repurchase up to \$2.6 billion of our common stock. This program was terminated on May 8, 2024.

In May 2024, the Company’s Audit Committee, upon delegation from the Company’s Board of Directors, authorized a program to repurchase up to \$5.0 billion of our common stock. This program superseded and replaced the August 2022 program and expires on May 9, 2027. Under this program, we may purchase stock in the open market or through privately negotiated transactions in accordance with applicable securities laws, including pursuant to pre-arranged stock trading plans. The timing and actual amount of the stock repurchases will depend on several factors including price, capital availability, regulatory requirements, alternative investment opportunities and other market conditions. We are not obligated to repurchase a specific number of shares of our common stock under this program and it may be modified, suspended or discontinued at any time. We are actively repurchasing shares under this program.

In fiscal year 2025, we entered into an accelerated share repurchase agreement (the “ASR Agreement”) with Goldman Sachs & Co. LLC., under which we purchased an aggregate of \$1.0 billion of our common stock as part of the May 2024 repurchase program. We received and retired 0.4 million shares during the three months ended June 30, 2025 to settle the ASR Agreement. In total, we repurchased 7.4 million shares at an average price of \$135.05 under the ASR Agreement. The total number of shares delivered and the average purchase price paid per share were determined upon final settlement based on the volume weighted average price over the term of the ASR, less an agreed upon discount.

The following table summarizes total shares repurchased during the three months ended June 30, 2025 and 2024:

(In millions)	August 2022 Program		May 2024 Program		Total	
	Shares	Amount ^(a)	Shares	Amount ^(a)	Shares	Amount
Three months ended June 30, 2025	—	\$ —	3.0	\$ 375	3.0	\$ 375
Three months ended June 30, 2024	1.2	\$ 152	1.6	\$ 223	2.8	\$ 375

^(a)Amount excludes excise taxes. Accrued excise taxes are included in accounts payable, accrued, and other current liabilities and additional paid-in capital on the Condensed Consolidated Balance Sheets.

(13) EARNINGS PER SHARE

The following table summarizes the computations of basic earnings per share (“Basic EPS”) and diluted earnings per share (“Diluted EPS”). Basic EPS is computed as net income divided by the weighted-average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur from common shares issuable through stock-based compensation plans including stock options, restricted stock units, market-based restricted stock units, performance-based restricted stock units, and ESPP purchase rights using the treasury stock method.

(In millions, except per share amounts)	Three Months Ended June 30,	
	2025	2024
Net income	\$ 201	\$ 280
Shares used to compute earnings per share:		
Weighted-average common stock outstanding — basic	251	266
Dilutive potential common shares related to stock award plans	3	2
Weighted-average common stock outstanding — diluted	254	268
Earnings per share:		
Basic	\$ 0.80	\$ 1.05
Diluted	\$ 0.79	\$ 1.04

Certain restricted stock units, market-based restricted stock units and performance-based restricted stock units were excluded from the treasury stock method computation of diluted shares as their inclusion would have had an antidilutive effect. For both the three months ended June 30, 2025 and 2024, one million such shares were excluded.

(14) SEGMENT AND REVENUE INFORMATION

Our reporting segment is based upon: our internal organizational structure; the manner in which our operations are managed; the criteria used by our Chief Executive Officer, our Chief Operating Decision Maker (“CODM”), to evaluate segment performance; the availability of separate financial information; and overall materiality considerations. As of June 30, 2025, we have one reportable segment, which represents our only operating segment. Our CODM makes decisions on resource allocation and assesses performance of the business based on our consolidated results, including net income.

The measure of segment assets are reported on the Condensed Consolidated Balance Sheets as total assets.

Information about our single reportable segment net revenue, net income, and significant segment expenses for the three months ended June 30, 2025 and 2024 is presented below (in millions):

	Three Months Ended June 30,	
	2025	2024
Net revenue	\$ 1,671	\$ 1,660
Less:		
Cost of revenue ⁽¹⁾	266	249
Research and development ⁽¹⁾	596	528
Marketing and sales ⁽¹⁾	202	193
General and administrative ⁽¹⁾	157	150
Amortization and impairment of intangibles	27	27
Restructuring and related charges	—	6
Stock-based compensation	152	143
Interest and other (income) expenses, net	(2)	(30)
Provision for income taxes	72	114
Net income	\$ 201	\$ 280

⁽¹⁾ Excludes amounts related to amortization and impairment of intangibles, restructuring and related charges, and stock-based compensation, which are presented separately in the table above.

Information about our total net revenue by timing of recognition for the three months ended June 30, 2025 and 2024 is presented below (in millions):

	Three Months Ended June 30,	
	2025	2024
<u>Net revenue by timing of recognition</u>		
Revenue recognized at a point in time	\$ 442	\$ 371
Revenue recognized over time	1,229	1,289
Net revenue	\$ 1,671	\$ 1,660

Generally, performance obligations that are recognized upfront upon transfer of control are classified as revenue recognized at a point in time, while performance obligations that are recognized over either the period in which we offer to provide future update rights and/or online hosting for the game and related extra content sold (“Estimated Offering Period”), contractual term or subscription period as the services are provided are classified as revenue recognized over time.

Revenue recognized at a point in time includes revenue allocated to the software license performance obligation. This also includes a portion of revenue from the licensing of software to third-parties.

Revenue recognized over time includes service revenue allocated to the future update rights and the online hosting performance obligations. This also includes sales of extra content associated with our online-hosted services such as our *Ultimate Team* game mode, revenue allocated to the future update rights from licensing of software to third-parties, subscription services, and revenue recognized from third parties that publish games and services under a license to certain of our intellectual property assets.

Information about our total net revenue by composition for the three months ended June 30, 2025 and 2024 is presented below (in millions):

	Three Months Ended June 30,	
	2025	2024
<u>Net revenue by composition</u>		
Full game downloads	\$ 233	\$ 190
Packaged goods	56	60
Full game	289	250
Live services and other	1,382	1,410
Net revenue	<u>\$ 1,671</u>	<u>\$ 1,660</u>

Full game net revenue includes full game downloads and packaged goods. Full game downloads primarily include revenue from digital sales of full games on console, PC, and certain licensing revenue. Packaged goods primarily include revenue from full games that are sold physically through distribution arrangements, mass market retailers, and specialty stores.

Live services and other net revenue primarily includes revenue from sales of extra content for console, PC, and mobile games, certain licensing revenue, subscriptions, and advertising.

Information about our total net revenue by platform for the three months ended June 30, 2025 and 2024 is presented below (in millions):

	Three Months Ended June 30,	
	2025	2024
<u>Platform net revenue</u>		
Console	\$ 1,007	\$ 1,005
PC and other	374	365
Mobile	290	290
Net revenue	<u>\$ 1,671</u>	<u>\$ 1,660</u>

Information about our operations in North America and internationally for the three months ended June 30, 2025 and 2024 is presented below (in millions):

	Three Months Ended June 30,	
	2025	2024
<u>Net revenue from unaffiliated customers</u>		
North America	\$ 642	\$ 616
International	1,029	1,044
Net revenue	<u>\$ 1,671</u>	<u>\$ 1,660</u>

Report of Independent Registered Public Accounting Firm

To the Stockholders and Board of Directors

Electronic Arts Inc.:

Results of Review of Interim Financial Information

We have reviewed the condensed consolidated balance sheet of Electronic Arts Inc. and subsidiaries (the Company) as of June 28, 2025, the related condensed consolidated statements of operations, comprehensive income, stockholders' equity, and cash flows for the three-month periods ended June 28, 2025 and June 29, 2024, and the related notes (collectively, the consolidated interim financial information). Based on our reviews, we are not aware of any material modifications that should be made to the consolidated interim financial information for it to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated balance sheet of the Company as of March 29, 2025, and the related consolidated statements of operations, comprehensive income, stockholders' equity, and cash flows for the year then ended (not presented herein); and in our report dated May 13, 2025, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of March 29, 2025 is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

Basis for Review Results

This consolidated interim financial information is the responsibility of the Company's management. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our reviews in accordance with the standards of the PCAOB. A review of consolidated interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the PCAOB, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

CAUTIONARY NOTE ABOUT FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q contains forward-looking statements. We use words such as “anticipate”, “believe”, “expect”, “intend”, “estimate”, “plan”, “predict”, “seek”, “goal”, “will”, “may”, “likely”, “should”, “could”, “continue”, “potential” (and the negative of any of these terms), “future” and similar expressions to identify forward-looking statements. In addition, any statements that refer to projections of our future financial performance, trends in our business, projections of markets relevant to our business, uncertain events and assumptions and other characterizations of future events or circumstances are forward-looking statements. Forward-looking statements consist of, among other things, statements related to our business, operations and financial results, industry prospects, our future financial performance, and our business plans and objectives, and may include certain assumptions that underlie the forward-looking statements. These forward-looking statements are not guarantees of future performance and reflect management’s current expectations. Our actual results could differ materially from those discussed in the forward-looking statements. Factors that might cause or contribute to such differences include those discussed in Part II, Item 1A of this Quarterly Report under the heading “Risk Factors”, as well as in other documents we have filed with the Securities and Exchange Commission (“SEC”), including our Annual Report on Form 10-K for the fiscal year ended March 31, 2025. We assume no obligation to revise or update any forward-looking statement for any reason, except as required by law.

OVERVIEW

The following overview is a high-level discussion of our operating results, as well as some of the trends and drivers that affect our business. Management believes that an understanding of these trends and drivers provides important context for our results for the three months ended June 30, 2025, as well as our future prospects. This summary is not intended to be exhaustive, nor is it intended to be a substitute for the detailed discussion and analysis provided elsewhere in this Form 10-Q, including in the remainder of “Management’s Discussion and Analysis of Financial Condition and Results of Operations (“MD&A”),” “Risk Factors,” and the Condensed Consolidated Financial Statements and related Notes. Additional information can be found in the “Business” section of our Annual Report on Form 10-K for the fiscal year ended March 31, 2025 as filed with the SEC on May 13, 2025 and in other documents we have filed with the SEC.

About Electronic Arts

Electronic Arts is a global leader in digital interactive entertainment. We develop, market, publish and deliver games, content and services that can be experienced on game consoles, PCs, and mobile devices. We create innovative games and experiences that deliver high-quality interactive entertainment and drive engagement across our global network of hundreds of millions of players. Through our live services offerings, we offer high-quality experiences designed to provide value to players and extend and enhance gameplay. These live services include extra content, subscription offerings and other revenue generated in addition to the sale of our full games. We are focusing on building games and experiences that grow the global online communities around our key franchises; deepening engagement through connecting interactive storytelling to key intellectual property; and harnessing our communities to grow in, around, and beyond our games.

Financial Results

Our key financial results for our fiscal quarter ended June 30, 2025 were as follows:

- Total net revenue was \$1,671 million, up 1 percent year-over-year.
- Live services and other net revenue was \$1,382 million, down 2 percent year-over-year.
- Gross margin was 83.3 percent, down 1 percentage point year-over-year.
- Operating expenses were \$1,121 million, up 9 percent year-over-year.
- Operating income was \$271 million, down 26 percent year-over-year.
- Net income was \$201 million with diluted earnings per share of \$0.79.
- Net cash provided by operating activities was \$17 million, down 86 percent year-over-year.
- Total cash, cash equivalents and short-term investments were \$1,630 million.
- We returned \$423 million to stockholders through our capital return programs, which include repurchasing 3 million shares for approximately \$375 million and paying \$48 million through our quarterly cash dividend program.

Trends in Our Business

Live Services Business. We offer our players high-quality experiences designed to provide value to players and to extend and enhance gameplay. These live services include extra content, subscription offerings and other revenue generated in addition to the sale of our full games and free-to-play games. Our net revenue attributable to live services and other was \$5,433 million, \$5,476 million, and \$5,544 million for the trailing twelve months ended June 30, 2025, 2024, and 2023, respectively, and we expect that live services net revenue will continue to be material to our business. Within live services and other, net revenue attributable to extra content was \$4,293 million, \$4,421 million, and \$4,342 million for the trailing twelve months ended June 30, 2025, 2024, and 2023, respectively. Growth in live services net revenue, including extra content may not be linear due to the competitive landscape, consumer buying patterns, and other factors. Our most popular live services are the extra content in the *Ultimate Team* mode associated with our sports franchises. *Ultimate Team* allows players to collect current and former players in order to build and compete as a personalized team. Live services net revenue generated from extra content purchased within *Ultimate Team*, a substantial portion of which was derived from FC *Ultimate Team*, is material to our business.

Digital Delivery of Games. In our industry, players increasingly purchase games digitally as opposed to purchasing physical discs. While this trend, as applied to our business, may not be linear due to a mix of products during a fiscal year, consumer buying patterns and other factors, over time we expect players to continue to purchase a higher proportion of our games digitally. As a result, we expect net revenue attributable to digital full game downloads to increase over time and net revenue attributable to sales of packaged goods to decrease.

Our net revenue attributable to digital full game downloads was \$1,478 million, \$1,343 million, and \$1,262 million during fiscal years 2025, 2024, and 2023, respectively; while our net revenue attributable to packaged goods sales was \$524 million, \$672 million, and \$675 million in fiscal years 2025, 2024, and 2023, respectively. In addition, as measured based on total units sold on Microsoft's Xbox One and Xbox Series X and Sony's PlayStation 4 and 5 rather than by net revenue, we estimate that 78 percent, 73 percent, and 68 percent of our total units sold during fiscal years 2025, 2024, and 2023, were sold digitally. Digital full game units are based on sales information provided by Microsoft and Sony; packaged goods units sold through are estimated by obtaining data from significant retail and distribution partners in North America, Europe and Asia, and applying internal sales estimates with respect to retail partners from which we do not obtain data. We believe that these percentages are reasonable estimates of the proportion of our games that are digitally downloaded in relation to our total number of units sold for the applicable period of measurement.

Increases in consumer adoption of digital purchase of games combined with increases in our live services revenue generally results in expansion of our gross margin, as costs associated with selling a game digitally are generally less than selling the same game through traditional retail and distribution channels.

Increased Competition. Competition in our business is intense. Our competitors range from established interactive entertainment companies to emerging start-ups. In addition, we compete with large, diversified companies that have strengthened their interactive entertainment capabilities. Our competitors have access to certain resources such as larger budgets, tools, technologies, or IP portfolios that can lead to greater consumer success and shift player time and engagement away from our products and services. In addition, our leading position within the interactive entertainment industry makes us a prime target for recruiting our executives, as well as key creative and technical talent, resulting in retention challenges and increased cost to retain and incentivize our key people.

Concentration of Sales Among the Most Popular Games. In our industry, we see a large portion of games sales concentrated on the most popular titles. Similarly, a significant portion of our revenue has been derived from games based on a few popular titles, such as EA SPORTS FC, EA SPORTS College Football, EA SPORTS Madden NFL, *Apex Legends*, Battlefield, and The Sims. In particular, we have historically derived a significant portion of our net revenue from our global football franchise, the annualized version of which is consistently one of the best-selling games in the marketplace.

Net Bookings. In order to improve transparency into our business, we disclose an operating performance metric, net bookings. Net bookings is defined as the net amount of products and services sold digitally or sold-in physically in the period. Net bookings is calculated by adding total net revenue to the change in deferred net revenue for online-enabled games.

The following is a calculation of our total net bookings for the periods presented:

(In millions)	Three Months Ended June 30,	
	2025	2024
Net revenue	\$ 1,671	\$ 1,660
Change in deferred net revenue (online-enabled games)	(373)	(398)
Net bookings	\$ 1,298	\$ 1,262

Net bookings were \$1,298 million for the three months ended June 30, 2025, primarily driven by sales related to our global football, Star Wars, American football, and The Sims franchises. Net bookings increased \$36 million, or 3 percent, as compared to the three months ended June 30, 2024, primarily driven by *Split Fiction* and a year-over-year increase in sales related to our global football franchise, partially offset by decreased sales of extra content from *Apex Legends*. Live services and other net bookings were \$1,084 million for the three months ended June 30, 2025, and decreased \$10 million, or 1 percent, as compared to the three months ended June 30, 2024. The decrease in live services and other net bookings was primarily driven by decreased sales of extra content from *Apex Legends* and within our mobile catalog portfolio, partially offset by sales from our global football franchise. Full game net bookings were \$214 million for the three months ended June 30, 2025, and increased \$46 million, or 27 percent, as compared to the three months ended June 30, 2024, primarily driven by *Split Fiction*.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Our Condensed Consolidated Financial Statements have been prepared in accordance with accounting principles generally accepted in the United States (“U.S. GAAP”). The preparation of these Condensed Consolidated Financial Statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, contingent assets and liabilities, and revenue and expenses during the reporting periods. The policies discussed below are considered by management to be critical because they are not only important to the portrayal of our financial condition and results of operations, but also because application and interpretation of these policies requires both management judgment and estimates of matters that are inherently uncertain and unknown. As a result, actual results may differ materially from our estimates.

Revenue Recognition

We derive revenue principally from sales of our games, and related extra content and services that can be experienced on game consoles, PCs, and mobile devices. Our product and service offerings include, but are not limited to, the following:

- full games with both online and offline functionality (“Games with Services”), which generally includes (1) the initial game delivered digitally or via physical disc at the time of sale and typically provide access to offline core game content (“software license”); (2) updates on a when-and-if-available basis, such as software patches or updates, and/or additional free content to be delivered in the future (“future update rights”); and (3) a hosted connection for online playability (“online hosting”);
- full games with online-only functionality which require an Internet connection to access all gameplay and functionality (“Online-Hosted Service Games”);
- extra content related to Games with Services and Online-Hosted Service Games which provides access to additional in-game content;
- subscriptions, such as EA Play and EA Play Pro, that generally offer access to a selection of full games, in-game content, online services and other benefits typically for a recurring monthly or annual fee; and
- licensing to third parties to distribute and host our games and content.

We evaluate and recognize revenue by:

- identifying the contract(s) with the customer;
- identifying the performance obligations in the contract;
- determining the transaction price;
- allocating the transaction price to performance obligations in the contract; and
- recognizing revenue as each performance obligation is satisfied through the transfer of a promised good or service to a customer (i.e., “transfer of control”).

Certain of our full game and/or extra content are sold to resellers with a contingency that the full game and/or extra content cannot be resold prior to a specific date (“Street Date Contingency”). We recognize revenue for transactions that have a Street Date Contingency when the Street Date Contingency is removed and the full game and/or extra content can be resold by the reseller. For digital full game and/or extra content downloads sold to customers, we recognize revenue when the full game and/or extra content is made available for download to the customer.

Online-Enabled Games

Games with Services. Our sales of Games with Services are evaluated to determine whether the software license, future update rights and the online hosting are distinct and separable. Sales of Games with Services are generally determined to have three distinct performance obligations: software license, future update rights, and the online hosting.

Since we do not sell the performance obligations on a stand-alone basis, we consider market conditions and other observable inputs to estimate the stand-alone selling price for each performance obligation. For Games with Services, generally 75 percent of the sales price is allocated to the software license performance obligation and recognized at a point in time when control of the license has been transferred to the customer. The remaining 25 percent is allocated to the future update rights and the online hosting performance obligations and recognized ratably as the service is provided (over the Estimated Offering Period).

Online-Hosted Service Games. Sales of our Online-Hosted Service Games are determined to have one distinct performance obligation: the online hosting service. We recognize revenue from these arrangements ratably as the service is provided (over the Estimated Offering Period).

Extra Content. Revenue received from sales of downloadable content are derived primarily from the sale of virtual currencies and digital in-game content that are designed to extend and enhance players' game experience. Sales of extra content are accounted for in a manner consistent with the treatment for our Games with Services and Online-Hosted Service Games as discussed above, depending upon whether or not the extra content has offline functionality. That is, if the extra content has offline functionality, then the extra content is accounted for similarly to Games with Services (generally determined to have three distinct performance obligations: software license, future update rights, and the online hosting). If the extra content does not have offline functionality, then the extra content is determined to have one distinct performance obligation: the online-hosted service.

Subscriptions

Sales of our subscriptions are determined to have one performance obligation: the online hosting. We recognize revenue from these arrangements ratably over the subscription term as the performance obligation is satisfied.

Licensing Revenue

We utilize third-party licensees to distribute and host our games and content in accordance with license agreements, for which the licensees typically pay us a fixed minimum guarantee and/or sales-based royalties. These arrangements typically include multiple performance obligations, such as a time-based license of software and future update rights. We recognize as revenue a portion of the minimum guarantee when we transfer control of the license of software (generally upon commercial launch) and the remaining portion ratably over the contractual term in which we provide the licensee with future update rights. Any sales-based royalties are generally recognized as the related sales occur by the licensee.

Significant Judgments around Revenue Arrangements

Identifying performance obligations. Performance obligations promised in a contract are identified based on the goods and services that will be transferred to the customer that are both capable of being distinct, (i.e., the customer can benefit from the goods or services either on its own or together with other resources that are readily available), and are distinct in the context of the contract (i.e., it is separately identifiable from other goods or services in the contract). To the extent a contract includes multiple promises, we must apply judgment to determine whether those promises are separate and distinct performance obligations. If these criteria are not met, the promises are accounted for as a combined performance obligation.

Determining the transaction price. The transaction price is determined based on the consideration that we will be entitled to receive in exchange for transferring our goods and services to the customer. Determining the transaction price often requires judgment, based on an assessment of contractual terms and business practices. It further includes review of variable consideration such as discounts, sales returns, price protection, and rebates, which is estimated at the time of the transaction. In addition, the transaction price does not include an estimate of the variable consideration related to sales-based royalties. Sales-based royalties are recognized as the sales occur.

Allocating the transaction price. Allocating the transaction price requires that we determine an estimate of the relative stand-alone selling price for each distinct performance obligation. Determining the relative stand-alone selling price is inherently subjective, especially in situations where we do not sell the performance obligation on a stand-alone basis (which occurs in the majority of our transactions). In those situations, we determine the relative stand-alone selling price based on various observable inputs using all information that is reasonably available. Examples of observable inputs and information include: historical internal pricing data, cost plus margin analysis, pre-release versus post-release costs, and pricing data from competitors to the extent the data is available. The results of our analysis resulted in a specific percentage of the transaction price being allocated to each performance obligation.

Determining the Estimated Offering Period. The offering period is the period in which we offer to provide the future update rights and/or online hosting for the game and related extra content sold. Because the offering period is not an explicitly defined period, we must make an estimate of the offering period for the service-related performance obligations (i.e., future update rights and/or online hosting). Determining the Estimated Offering Period is inherently subjective and is subject to regular revision. Generally, we consider the average period of time customers are online when estimating the offering period. We also consider the estimated period of time between the date a game unit is sold to a reseller and the date the reseller sells the game

unit to the customer (i.e., time in channel). Based on these two factors, we then consider the method of distribution. For example, games and extra content sold at retail would have a composite offering period equal to the online gameplay period plus time in channel as opposed to digitally-distributed games and extra content which are delivered immediately via digital download and therefore, the offering period is estimated to be only the online gameplay period.

Additionally, we consider results from prior analyses, known and expected online gameplay trends, as well as disclosed service periods for competitors' games in determining the Estimated Offering Period for future sales. We believe this provides a reasonable depiction of the transfer of future update rights and online hosting to our customers, as it is the best representation of the time period during which our games and extra content are experienced. We recognize revenue for future update rights and online hosting performance obligations ratably on a straight-line basis over this period as there is a consistent pattern of delivery for these performance obligations. Revenue for service-related performance obligations for digitally-distributed games and extra content is recognized over an estimated eight-month period beginning in the month of sale, and revenue for service-related performance obligations for games and extra content sold through retail is recognized over an estimated ten-month period beginning in the month of sale.

We recently completed our annual evaluation of the Estimated Offering Period. As a result, for all new sales beginning in the second quarter of fiscal year 2026, the revenue that we recognize for service-related performance obligations related to our mobile free-to-play and PC and console free-to-play games will be recognized generally over an eleven-month period, previously recognized over eight and twelve-month periods, respectively. We do not expect this change in Estimated Offering Period to impact the amount of net bookings or the operating cash flows that we report. We expect that this change will move the recognition of approximately \$81 million in net revenue from fiscal year 2026 into fiscal year 2027.

Principal Agent Considerations

We evaluate sales to end customers of our full games and related content via third-party storefronts, including digital storefronts such as Microsoft's Xbox Store, Sony's PlayStation Store, Apple App Store, and Google Play Store, in order to determine whether or not we are acting as the principal in the sale to the end customer, which we consider in determining if revenue should be reported gross or net of fees retained by the third-party storefront. An entity is the principal if it controls a good or service before it is transferred to the end customer. Key indicators that we evaluate in determining gross versus net treatment include but are not limited to the following:

- the underlying contract terms and conditions between the various parties to the transaction;
- which party is primarily responsible for fulfilling the promise to provide the specified good or service to the end customer;
- which party has discretion in establishing the price for the specified good or service; and
- which party has title risk before the specified good or service has been transferred to the end customer.

Based on an evaluation of the above indicators, except as discussed below, we have determined that generally the third party is considered the principal to end customers for the sale of our full games and related content. We therefore report revenue related to these arrangements net of the fees retained by the storefront. However, for sales arrangements via Apple App Store and Google Play Store, EA is considered the principal to the end customer and thus, we report revenue on a gross basis and mobile platform fees are reported within cost of revenue.

Income Taxes

We recognize deferred tax assets and liabilities for both (1) the expected impact of differences between the financial statement amount and the tax basis of assets and liabilities and (2) the expected future tax benefit to be derived from tax losses and tax credit carryforwards. We do not recognize any deferred taxes related to the U.S. taxes on foreign earnings as we recognize these taxes as a period cost.

We record a valuation allowance against deferred tax assets when it is considered more likely than not that all or a portion of our deferred tax assets will not be realized. In making this determination, we are required to give significant weight to evidence that can be objectively verified. It is generally difficult to conclude that a valuation allowance is not needed when there is significant negative evidence, such as cumulative losses in recent years. Forecasts of future taxable income are considered to be less objective than past results. Therefore, cumulative losses weigh heavily in the overall assessment.

In addition to considering forecasts of future taxable income, we are also required to evaluate and quantify other possible sources of taxable income in order to assess the realization of our deferred tax assets, namely the reversal of existing deferred tax liabilities, the carryback of losses and credits as allowed under current tax law, and the implementation of tax planning

strategies. Evaluating and quantifying these amounts involves significant judgments. Each source of income must be evaluated based on all positive and negative evidence and this evaluation may involve assumptions about future activity. Certain taxable temporary differences that are not expected to reverse during the carry forward periods permitted by tax law cannot be considered as a source of future taxable income that may be available to realize the benefit of deferred tax assets.

Every quarter, we perform a realizability analysis to evaluate whether it is more likely than not that all or a portion of our deferred tax assets will not be realized. Our Swiss deferred tax asset realizability analysis relies upon future Swiss taxable income, and considers all available sources of Swiss income based on positive and negative evidence. We give more weight to evidence that can be objectively verified. However, estimating future Swiss taxable income requires judgment, specifically related to assumptions about expected growth rates of future Swiss taxable income, which are based primarily on third party market and industry growth data. Actual results that differ materially from those estimates could have a material impact on our valuation allowance assessment. Swiss interest rates have an impact on the valuation allowance and are based on published Swiss guidance, which generally occurs in the fourth quarter of our fiscal year. Any significant changes to such interest rates could result in a material impact to the valuation allowance and to our Condensed Consolidated Financial Statements. We have adjusted our valuation allowance for changes in the published interest rates in the past and we may do so again in the future. Switzerland has a seven-year carryforward period and does not permit the carry back of losses. Actions we take in connection with acquisitions could also impact the utilization of our Swiss deferred tax asset.

As part of the process of preparing our Condensed Consolidated Financial Statements, we are required to estimate our income taxes in each jurisdiction in which we operate prior to the completion and filing of tax returns for such periods. This process requires estimating both our geographic mix of income and our uncertain tax positions in each jurisdiction where we operate. These estimates require us to make judgments about the likely application of the tax law to our situation, as well as with respect to other matters, such as anticipating the positions that we will take on tax returns prior to preparing the returns and the outcomes of disputes with tax authorities. The ultimate resolution of these issues may take extended periods of time due to examinations by tax authorities and statutes of limitations. In addition, changes in our business, including acquisitions, changes in our international corporate structure, changes in the geographic location of business functions or assets, changes in the geographic mix and amount of income, as well as changes in our agreements with tax authorities, valuation allowances, applicable accounting rules, applicable tax laws and regulations, rulings and interpretations thereof, developments in tax audit and other matters, and variations in the estimated and actual level of annual pre-tax income can affect the overall effective tax rate.

IMPACT OF RECENTLY ISSUED ACCOUNTING STANDARDS

The information under the subheading “Other Recently Issued Accounting Standards” in [Note 1 — Description of Business and Basis of Presentation](#) to the Condensed Consolidated Financial Statements in this Form 10-Q is incorporated by reference into this Item 2.

RESULTS OF OPERATIONS

Our fiscal year is reported on a 52- or 53-week period that ends on the Saturday nearest March 31. Our results of operations for the fiscal year ending March 31, 2026 contains 52 weeks and ends on March 28, 2026. Our results of operations for the fiscal year ended March 31, 2025 contained 52 weeks and ended on March 29, 2025. Our results of operations for the three months ended June 30, 2025 contained 13 weeks and ended on June 28, 2025. Our results of operations for the three months ended June 30, 2024 contained 13 weeks and ended on June 29, 2024. For simplicity of disclosure, all fiscal periods are referred to as ending on a calendar month end.

Net Revenue

Net revenue consists of sales generated from (1) full games sold as digital downloads or as packaged goods and designed for play on game consoles and PCs, (2) live services which primarily includes sales of extra content for console, PC, and mobile games, (3) subscriptions that generally offer access to a selection of full games, in-game content, online services and other benefits, and (4) licensing our games to third parties to distribute and host our games and content.

Net Revenue Quarterly Analysis

Net Revenue

Net revenue for the three months ended June 30, 2025 was \$1,671 million, primarily driven by sales related to our global football, American football, and The Sims franchises. Net revenue for the three months ended June 30, 2025 increased \$11 million as compared to the three months ended June 30, 2024. This increase was driven by a \$129 million increase in net revenue primarily due to *Split Fiction* and our American football franchises, driven by *EA SPORTS College Football 25*, partially offset by a \$118 million decrease in net revenue primarily due to decreased sales of extra content for *Apex Legends* and from sunset mobile titles.

Net Revenue by Composition

Our net revenue by composition for the three months ended June 30, 2025 and 2024 was as follows (in millions):

	Three Months Ended June 30,			
	2025	2024	\$ Change	% Change
Net revenue:				
Full game downloads	\$ 233	\$ 190	\$ 43	23 %
Packaged goods	56	60	(4)	(7)%
Full game	\$ 289	\$ 250	\$ 39	16 %
Live services and other	\$ 1,382	\$ 1,410	\$ (28)	(2)%
Total net revenue	\$ 1,671	\$ 1,660	\$ 11	1 %

Full Game Net Revenue

Full game net revenue includes full game downloads and packaged goods. Full game downloads primarily include revenue from digital sales of full games on console, PC, and certain licensing revenue. Packaged goods primarily include revenue from full games that are sold physically through distribution arrangements, mass market retailers, and specialty stores.

For the three months ended June 30, 2025, full game net revenue was \$289 million, primarily driven by *EA SPORTS FC 25*, *Split Fiction*, and *EA SPORTS F1 25*. Full game net revenue for the three months ended June 30, 2025 increased \$39 million, or 16 percent, as compared to the three months ended June 30, 2024, primarily driven by *Split Fiction*.

Live Services and Other Net Revenue

Live services and other net revenue primarily includes revenue from sales of extra content for console, PC, and mobile games, certain licensing revenue, subscriptions, and advertising.

For the three months ended June 30, 2025, live services and other net revenue was \$1,382 million, primarily driven by sales of extra content for our global football, American football, and The Sims franchises. Live services and other net revenue for the three months ended June 30, 2025 decreased \$28 million, or 2 percent, as compared to the three months ended June 30, 2024. This decrease was primarily driven by decreased sales of extra content for *Apex Legends*, partially offset by an increase in net revenue primarily due to sales of extra content for *Ultimate Team* within our American football franchises, driven by *EA SPORTS College Football 25*.

Cost of Revenue Quarterly Analysis

Cost of revenue consists of (1) certain royalty expenses for sports organizations, movie studios, independent software developers, and others (2) mobile platform fees associated with our mobile revenue (for transactions in which we are acting as the principal in the sale to the end customer), (3) data center, bandwidth and server costs associated with hosting our online games and websites, (4) inventory costs, including manufacturing royalties, (5) payment processing fees, (6) amortization and impairments of certain intangible assets, and (7) personnel-related costs.

Cost of revenue for the three months ended June 30, 2025 and 2024 was as follows (in millions):

	June 30, 2025	% of Net Revenue	June 30, 2024	% of Net Revenue	% Change	Change as a % of Net Revenue
\$	279	17 %	\$ 263	16 %	6 %	1 %

Cost of Revenue

Cost of revenue increased by \$16 million during the three months ended June 30, 2025, as compared to the three months ended June 30, 2024, primarily due to sales performance from royalty-bearing titles, driven by *Split Fiction* and our global football franchise, partially offset by a decrease in online hosting and platform fees.

Research and Development

Research and development expenses consist of expenses incurred by our production studios for personnel-related costs, related overhead costs, external third-party development costs, contracted services, and depreciation. Research and development expenses for our online products include expenses incurred by our studios consisting of direct development and related overhead costs in connection with the development and production of our online games. Research and development expenses also include expenses associated with our digital platform, software licenses and maintenance, and management overhead.

Research and development expenses for the three months ended June 30, 2025 and 2024 were as follows (in millions):

	June 30, 2025	% of Net Revenue	June 30, 2024	% of Net Revenue	\$ Change	% Change
Three months ended	\$ 706	42 %	\$ 629	38 %	\$ 77	12 %

Research and development expenses increased by \$77 million, or 12 percent, during the three months ended June 30, 2025, as compared to the three months ended June 30, 2024. This increase was primarily due to a \$46 million increase in personnel-related expenses as part of our continued investment in our studios, a \$19 million increase in studio-related contracted services, and a \$9 million increase in stock-based compensation.

Marketing and Sales

Marketing and sales expenses consist of advertising, marketing and promotional expenses, personnel-related costs, and related overhead costs.

Marketing and sales expenses for the three months ended June 30, 2025 and 2024 were as follows (in millions):

	June 30, 2025	% of Net Revenue	June 30, 2024	% of Net Revenue	\$ Change	% Change
Three months ended	\$ 214	13 %	\$ 205	12 %	\$ 9	4 %

Marketing and sales expenses increased by \$9 million, or 4 percent, during the three months ended June 30, 2025, as compared to the three months ended June 30, 2024. This increase was primarily due to higher advertising and marketing spending related to our American football franchises and *EA SPORTS FC Mobile*, partially offset by reduced spending for *Apex Legends*.

General and Administrative

General and administrative expenses consist of personnel and related expenses of executive and administrative staff, corporate functions such as finance, legal, human resources, and information technology (“IT”), related overhead costs, fees for professional services, and allowances for doubtful accounts.

General and administrative expenses for the three months ended June 30, 2025 and 2024 were as follows (in millions):

	June 30, 2025	% of Net Revenue	June 30, 2024	% of Net Revenue	\$ Change	% Change
Three months ended	\$ 184	11 %	\$ 180	11 %	\$ 4	2 %

General and administrative expenses increased by \$4 million, or 2 percent, during the three months ended June 30, 2025, as compared to the three months ended June 30, 2024. This increase was primarily due to an increase in personnel-related costs.

Income Taxes

On July 4, 2025, the United States enacted the OBBB which extended or modified certain corporate tax provisions under the 2017 TCJA. The impacts of the OBBB are not included in our operating results for the three months ended June 30, 2025.

Provision for income taxes for the three months ended June 30, 2025 and 2024 were as follows (in millions):

	June 30, 2025	Effective Tax Rate	June 30, 2024	Effective Tax Rate
Three months ended	\$ 72	26 %	\$ 114	29 %

The provision for income taxes for the three months ended June 30, 2025 is based on our projected annual effective tax rate for fiscal year 2026, adjusted for specific items that are required to be recognized in the period in which they are incurred. Our effective tax rate for the three months ended June 30, 2025 was 26 percent, as compared to 29 percent for the same period prior year. The decrease in effective tax rate year-over-year is primarily due to higher excess tax benefits from stock-based compensation compared to prior year.

The European Union and other countries, including Switzerland, have enacted, or have committed to enact global minimum taxes, commonly referred to as Pillar II, as proposed by the Organization for Economic Cooperation and Development (“OECD”), effective with our fiscal year 2025. Pillar II in the relevant countries where we operate did not have a material impact on our tax provision for the three months ended June 30, 2025. On June 28, 2025, the G7 countries announced an agreement on the potential application of Pillar II to U.S.-parented multinationals. We will monitor legislative guidance to evaluate potential Pillar II impacts as they become available.

LIQUIDITY AND CAPITAL RESOURCES

(In millions)	As of June 30, 2025	As of March 31, 2025	Increase/(Decrease)
Cash and cash equivalents	\$ 1,518	\$ 2,136	\$ (618)
Short-term investments	112	112	—
Total	<u>\$ 1,630</u>	<u>\$ 2,248</u>	<u>\$ (618)</u>
Percentage of total assets	14 %	18 %	

(In millions)	Three Months Ended June 30,		Change
	2025	2024	
Net cash provided by operating activities	\$ 17	\$ 120	\$ (103)
Net cash used in investing activities	(89)	(69)	(20)
Net cash used in financing activities	(568)	(546)	(22)
Effect of foreign exchange on cash and cash equivalents	22	(5)	27
Net increase (decrease) in cash and cash equivalents	<u>\$ (618)</u>	<u>\$ (500)</u>	<u>\$ (118)</u>

Changes in Cash Flow

Operating Activities. Net cash provided by operating activities decreased by \$103 million during the three months ended June 30, 2025, as compared to the three months ended June 30, 2024, primarily driven by higher cash payments for royalties, higher personnel-related payments, and lower cash inflows from hedging activities, partially offset by higher cash collections from sales.

Investing Activities. Net cash used in investing activities increased by \$20 million during the three months ended June 30, 2025, as compared to the three months ended June 30, 2024, primarily driven by lower proceeds from maturities and sales of short-term investments and acquisition-related payments, partially offset by reduced purchases of short-term investments.

Financing Activities. Net cash used in financing activities increased by \$22 million during the three months ended June 30, 2025, as compared to the three months ended June 30, 2024, primarily due to a \$24 million increase in cash paid to taxing authorities in connection with withholding taxes for stock-based compensation.

Short-term Investments

Due to our mix of fixed and variable rate securities, our short-term investment portfolio is susceptible to changes in short-term interest rates. As of June 30, 2025, our short-term investments had net unrealized gains of less than \$1 million or less than 1 percent of total short-term investments. From time to time, we may liquidate some or all of our short-term investments to fund operational needs or other activities, such as capital expenditures, business acquisitions or stock repurchase programs.

Senior Notes

In February 2021, we issued \$750 million aggregate principal amount of the 2031 Notes and \$750 million aggregate principal amount of the 2051 Notes. The effective interest rate is 1.98% for the 2031 Notes and 3.04% for the 2051 Notes. Interest is payable semiannually in arrears, on February 15 and August 15 of each year.

In February 2016, we issued \$400 million aggregate principal amount of the 2026 Notes. The effective interest rate is 4.97% for the 2026 Notes. Interest is payable semiannually in arrears, on March 1 and September 1 of each year.

See [Note 10 — Financing Arrangements](#) to the Condensed Consolidated Financial Statements in this Form 10-Q as it relates to our Senior Notes, which is incorporated by reference into this Item 2.

Credit Facility

On March 22, 2023, we entered into a \$500 million unsecured revolving credit facility (the "Credit Facility") with a syndicate of banks. The Credit Facility terminates on March 22, 2028 unless the maturity is extended in accordance with its terms. As of June 30, 2025, no amounts were outstanding. The Credit Facility contains an option to arrange with existing lenders and/or new lenders to provide up to an aggregate of \$500 million in additional commitments for revolving loans. Proceeds of loans made under the Credit Facility may be used for general corporate purposes. See [Note 10 — Financing Arrangements](#) to the Condensed Consolidated Financial Statements in this Form 10-Q as it relates to our Credit Facility, which is incorporated by reference into this Item 2.

Financial Condition

Our material cash requirements, including commitments for capital expenditure, as of June 30, 2025 are set forth in our [Note 11 — Commitments and Contingencies](#) to the Condensed Consolidated Financial Statements in this Form 10-Q, which is incorporated by reference into this Item 2. We expect capital expenditures to be approximately \$225 million in fiscal year 2026 primarily due to investments in hardware, software, and real estate. We believe that our cash, cash equivalents, short-term investments, cash generated from operations and available financing facilities will be sufficient to meet these material cash requirements, which include licensing intellectual property from sports organizations and players associations used in our EA SPORTS titles and third-party content, debt repayment obligations, and to fund our operating requirements for the next 12 months and beyond. Our operating requirements include working capital requirements, capital expenditures, our capital return programs, and potentially, future acquisitions or strategic investments. We may choose at any time to raise additional capital to repay debt, strengthen our financial position, facilitate expansion, repurchase our stock, pursue strategic acquisitions and investments, and/or to take advantage of business opportunities as they arise. There can be no assurance, however, that such additional capital will be available to us on favorable terms, if at all, or that it will not result in substantial dilution to our existing stockholders.

During the three months ended June 30, 2025, we returned \$423 million to stockholders through our capital return programs, which include repurchasing 3.0 million shares for approximately \$375 million and paying \$48 million through our quarterly cash dividend program.

Our foreign subsidiaries are generally subject to U.S. tax, and to the extent earnings from these subsidiaries can be repatriated without a material tax cost, such earnings will not be indefinitely reinvested. As of June 30, 2025, approximately \$1,124 million of our cash and cash equivalents were domiciled in foreign tax jurisdictions. All of our foreign cash is available for repatriation without a material tax cost.

We have a “shelf” registration statement on Form S-3 on file with the SEC. This shelf registration statement, which includes a base prospectus, allows us at any time to offer any combination of securities described in the prospectus in one or more offerings. Unless otherwise specified in a prospectus supplement accompanying the base prospectus, we would use the net proceeds from the sale of any securities offered pursuant to the shelf registration statement for general corporate purposes, which may include funding for working capital, financing capital expenditures, research and development, marketing and distribution efforts, and if opportunities arise, for acquisitions or strategic alliances. Pending such uses, we may invest the net proceeds in interest-bearing securities. In addition, we may conduct concurrent or other financings at any time.

Our ability to maintain sufficient liquidity could be affected by various risks and uncertainties including, but not limited to, customer demand and acceptance of our products, our ability to collect our accounts receivable as they become due, successfully achieving our product release schedules and attaining our forecasted sales objectives, economic conditions in the United States and abroad, the impact of acquisitions and other strategic transactions in which we may engage, the impact of competition, the seasonal and cyclical nature of our business and operating results, and the other risks described in the “[Risk Factors](#)” section, included in Part II, Item 1A of this report.

As of June 30, 2025, we did not have any off-balance sheet arrangements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

MARKET RISK

We are exposed to various market risks, including changes in foreign currency exchange rates, interest rates and market prices, which have experienced significant volatility. Market risk is the potential loss arising from changes in market rates and market prices. We employ established policies and practices to manage these risks. Foreign currency forward contracts are used to hedge anticipated exposures or mitigate some existing exposures subject to foreign exchange risk as discussed below. While we do not hedge our short-term investment portfolio, we protect our short-term investment portfolio against different market risks, including interest rate risk as discussed below. Our cash and cash equivalents portfolio consists of highly liquid investments with insignificant interest rate risk and original or remaining maturities of three months or less at the time of purchase. We do not enter into derivatives or other financial instruments for speculative trading purposes and do not hedge our market price risk relating to marketable equity securities, if any.

Foreign Currency Exchange Risk

Foreign Currency Exchange Rates. International sales are a fundamental part of our business, and the strengthening of the U.S. dollar (particularly relative to the Euro, British pound sterling, Australian dollar, Japanese yen, Chinese yuan, South Korean won and Polish zloty) has a negative impact on our reported international net revenue, but a positive impact on our reported international operating expenses (particularly the Swedish krona and the Canadian dollar) because these amounts are translated at lower rates as compared to periods in which the U.S. dollar is weaker. While we use foreign currency hedging contracts to mitigate some foreign currency exchange risk, these activities are limited in the protection that they provide us and can themselves result in losses.

Cash Flow Hedging Activities. We hedge a portion of our foreign currency risk related to forecasted foreign currency-denominated sales and expense transactions by purchasing foreign currency forward contracts that generally have maturities of 18 months or less. These transactions are designated and qualify as cash flow hedges. Our hedging programs are designed to reduce, but do not entirely eliminate, the impact of currency exchange rate movements in net revenue and research and development expenses.

Balance Sheet Hedging Activities. We use foreign currency forward contracts to mitigate foreign currency exchange risk associated with foreign currency-denominated monetary assets and liabilities, primarily intercompany receivables and payables. These foreign currency forward contracts generally have a contractual term of three months or less and are transacted near month-end.

We believe the counterparties to our foreign currency forward contracts are creditworthy multinational commercial banks. While we believe the risk of counterparty nonperformance is not material, a sustained decline in the financial stability of financial institutions as a result of disruption in the financial markets could affect our ability to secure creditworthy counterparties for our foreign currency hedging programs.

Notwithstanding our efforts to mitigate some foreign currency exchange risks, there can be no assurance that our hedging activities will adequately protect us against the risks associated with foreign currency fluctuations. As of June 30, 2025, a hypothetical adverse foreign currency exchange rate movement of 10 percent or 20 percent would have resulted in potential declines in the fair value on our foreign currency forward contracts used in cash flow hedging of \$236 million or \$473 million, respectively. As of June 30, 2025, a hypothetical adverse foreign currency exchange rate movement of 10 percent or 20 percent would have resulted in potential losses in the Condensed Consolidated Statements of Operations on our foreign currency forward contracts used in balance sheet hedging of \$106 million or \$212 million, respectively. This sensitivity analysis assumes an adverse shift of all foreign currency exchange rates; however, all foreign currency exchange rates do not always move in the same manner and actual results may differ materially. See [Note 4 — Derivative Financial Instruments](#) to the Condensed Consolidated Financial Statements in this Form 10-Q as it relates to our derivative financial instruments, which is incorporated by reference into this Item 3.

Interest Rate Risk

Our exposure to market risk for changes in interest rates relates primarily to our short-term investment portfolio. We manage our interest rate risk by maintaining an investment portfolio generally consisting of debt instruments of high credit quality and relatively short maturities. However, because short-term investments mature relatively quickly and, if reinvested, are invested at the then-current market rates, interest income on a portfolio consisting of short-term investments is subject to market fluctuations to a greater extent than a portfolio of longer term investments. Additionally, the contractual terms of the investments do not permit the issuer to call, prepay or otherwise settle the investments at prices less than the stated par value. Our investments are held for purposes other than trading. We do not use derivative financial instruments in our short-term investment portfolio.

As of June 30, 2025, our short-term investments were classified as available-for-sale securities and, consequently, were recorded at fair value with changes in fair value, including unrealized gains and unrealized losses not related to credit losses, reported as a separate component of accumulated other comprehensive income (loss), net of tax, in stockholders' equity.

Notwithstanding our efforts to manage interest rate risks, there can be no assurance that we will be adequately protected against risks associated with interest rate fluctuations. Changes in interest rates affect the fair value of our short-term investment portfolio. To provide a meaningful assessment of the interest rate risk associated with our short-term investment portfolio, we performed a sensitivity analysis to determine the impact a change in interest rates would have on the value of the portfolio assuming a 150 basis point parallel shift in the yield curve. As of June 30, 2025, a hypothetical 150 basis point increase in interest rates would have resulted in a \$1 million, or 1 percent decrease in the fair market value of our short-term investments.

Item 4. Controls and Procedures

Evaluation of disclosure controls and procedures

Our Chief Executive Officer and our Chief Financial Officer, after evaluating the effectiveness of our disclosure controls and procedures, believe that as of the end of the period covered by this report, our disclosure controls and procedures were effective in providing the requisite reasonable assurance that material information required to be disclosed in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding the required disclosure.

Changes in internal control over financial reporting

There has been no change in our internal controls over financial reporting identified in connection with management's evaluation required by paragraph (d) of Rules 13a-15 and 15d-15 under the Exchange Act, that occurred during the fiscal quarter ended June 30, 2025 that has materially affected or is reasonably likely to materially affect our internal control over financial reporting.

Limitations on effectiveness of disclosure controls

There are inherent limitations to the effectiveness of any system of disclosure controls and procedures. These limitations include the possibility of human error, the circumvention or overriding of the controls and procedures and reasonable resource constraints. In addition, because we have designed our system of controls based on certain assumptions, which we believe are reasonable, about the likelihood of future events, our system of controls may not achieve its desired purpose under all possible future conditions. Accordingly, our disclosure controls and procedures provide reasonable assurance, but not absolute assurance, of achieving their objectives.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

Refer to [Note 11](#) of the Notes to the Condensed Consolidated Financial Statements included in Part I, Item 1 of this Form 10-Q for disclosures regarding our legal proceedings.

Item 1A. Risk Factors

Our business is subject to many risks and uncertainties, which may affect our future financial performance. In the past, we have experienced certain of the events and circumstances described below, which adversely impacted our business and financial performance. If any of the events or circumstances described below occur, our business or financial performance could be harmed, our actual results could differ materially from our expectations and the market value of our stock could decline. The risks and uncertainties discussed below are not the only ones we face. There may be additional risks and uncertainties not currently known to us or that we currently do not believe could be material that may harm our business or financial performance.

STRATEGIC RISKS

Our business is intensely competitive. We may not deliver successful and engaging products and services, or consumers may prefer our competitors' products or services over our own.

Competition in our business is intense. Many new products and services are regularly introduced, but only a relatively small number of products and associated services drive significant engagement and account for a significant portion of total revenue. Our competitors range from established interactive entertainment companies to emerging start-ups. In addition, we compete with large, diversified companies that have strengthened their interactive entertainment capabilities. Their greater financial and other resources provide larger budgets to recruit our key creative and technical talent, develop and market products and services that gain consumer success, shift player time and engagement away from our products and services, or otherwise disrupt our operations. We also expect new competitors to continue to emerge throughout the world. If our competitors develop more successful and engaging products or services, offer competitive products or services at lower price points, or if we do not continue to develop consistently high-quality, well-received and engaging products and services, or if our marketing strategies are not innovative or fail to resonate with players, particularly during key selling periods, our revenue, margins, and profitability will decline.

We strive to create innovative and high-quality products and services that allow us to grow the global online communities around our key franchises and reach more players. However, innovative and high-quality titles, even if highly-reviewed or critically acclaimed, may not meet our expectations or the expectations of our players. Many financially successful products and services within our industry are iterations of prior titles with large established consumer bases and significant brand recognition, which makes competing in certain categories challenging. In addition, products or services of our direct competitors or other entertainment companies have shifted consumer spending or engagement from our products and services and may do so in the future, which could cause our products and services to underperform.

A significant portion of our revenue historically has been derived from products and services based on a few popular franchises, and the underperformance of a single major title has had, and could in the future have, a material adverse impact on our financial results. For example, we have historically derived a significant portion of our net revenue from sales related to our EA SPORTS FC franchise, annualized versions of which are consistently one of the best-selling games in the marketplace. Any events or circumstances that negatively impact our EA SPORTS FC franchise, including *Ultimate Team*, such as product or service quality, other products that take a portion of consumer spending and time, the delay or cancellation of a product or service launch, increased competition for key licenses, or real or perceived security or regulatory risks, negatively impacts our financial results to a disproportionate extent.

We may not meet our product and live service development schedules.

Our ability to meet product and live service development schedules is affected by a number of factors both within and outside our control, including feedback from our players, the creative processes involved, the coordination of large and sometimes geographically dispersed development teams, evolving work models, the complexity of our products and the platforms for which they are developed, the need to fine-tune our products prior to their release, and, in certain cases, approvals from third

parties. We have experienced development delays for our products and services in the past which caused us to delay or cancel release dates. Any failure to meet anticipated production or release schedules likely would result in a delay of revenue and/or possibly a significant shortfall in our revenue, increase our development and/or marketing expenses, harm our profitability, and cause our operating results to be materially different than anticipated. If we miss key selling periods for products or services as a result of product delays or product cancellations, our sales likely will suffer significantly.

Our industry changes rapidly and we may fail to anticipate or successfully implement new or evolving technologies, or adopt successful business strategies, distribution methods or services.

Rapid changes in our industry require us to anticipate, sometimes years in advance, the ways in which our business can remain competitive in the market. We have invested, and in the future may invest, in new business and marketing strategies, tools and technologies, distribution methods, products, and services. There can be no assurance that the strategic investments we pursue will achieve financial results that meet or exceed our expectations. We may miss opportunities or fail to respond quickly enough to industry change, including the failure to adopt tools, technology and distribution methods or failure to develop new products, services or ways to engage with our games that become popular with consumers, each of which could adversely affect our financial results. For example, we expect our competitive landscape to evolve as artificial intelligence technology advances and is integrated into the markets in which we compete. Our competitors may incorporate new artificial intelligence tools and technology into their existing products and services more successfully, may use these new tools and technology more efficiently or may create new categories of products and services before we do.

Stakeholders have high expectations for the quality and integrity of our business, culture, products and services and we may be unsuccessful in meeting these expectations.

Expectations regarding the quality, performance and integrity of our business, brand, reputation, culture, products and services are high. Players and other stakeholders have sometimes been critical of our industry, brands, products, services, online communities, business models and/or practices for a wide variety of reasons, including perceptions about gameplay fun, fairness, game content, features or services, or objections to certain of our practices. These negative responses may not be foreseeable. We also may not effectively manage our responses because of reasons within or outside of our control. In addition, we have taken actions, including delaying the release of our games and delaying or discontinuing content, features and services for our games, after taking into consideration, among other things, feedback from our community or geopolitical events. These actions have had a negative impact on our financial results and have impacted our future development processes. We expect to continue to take actions as appropriate, including actions that may result in additional expenditures and the loss of revenue. Maintaining high ratings on the third-party console, platforms and devices on which we operate are important to drive players to our products and services. If we receive significant negative reviews that result in a decrease in our ratings, including as a result of negative review campaigns intended to harm our ratings, our games could be more difficult for players to find, negatively impacting our financial and operating results.

Certain of our games and features on our platforms support online features that allow players and viewers to communicate with one another and post content, in real time, that is visible to other players and viewers. From time to time, this “user generated content” may contain objectionable and offensive content that is distributed and disseminated by third parties and our brands may be negatively affected by such actions. If we fail to appropriately respond to the dissemination of such content, we may be subject to lawsuits and governmental regulation, our players may not engage with our products and services and/or may lose confidence in our brands and our financial results may be adversely affected.

Our products and services are extremely complex software programs and are difficult to develop and distribute. We have quality controls in place to detect defects, bugs or other errors in our products and services before they are released. Nonetheless, these quality controls are subject to human error, overriding, and resource or technical constraints. If these quality controls and preventative measures are not effective in detecting all defects, bugs or errors in our products and services before they have been released into the marketplace, then our products and services could be below our standards and the standards of our players and our reputation, brand and sales could be adversely affected. In addition, we could be required to, or may find it necessary to, offer a refund for the product or service, suspend the availability or sale of the product or service or expend significant resources to cure the defect, bug or error each of which could significantly harm our business and operating results.

We are integrating artificial intelligence tools and technologies into our business and development processes. The use of artificial intelligence might present social and ethical issues that, if not managed appropriately, may result in legal and reputational harm, cause consumers to lose confidence in our business and brands and negatively impact our financial and operating results.

External game developers may not meet product development schedules or otherwise honor their obligations.

We contract with external game developers to develop our games or to publish or distribute their games. While we maintain contractual protections, we have less control over the product development schedules of games developed by external developers. We depend on their ability to meet product development schedules. If we have disputes with external developers or they cannot meet product development schedules, acquire certain approvals or are otherwise unable or unwilling to honor their obligations to us, we may delay or cancel previously announced games, alter our launch schedule or experience increased costs and expenses, which could result in a delay or significant shortfall in anticipated revenue, harm our profitability and reputation, and cause our financial results to be materially affected.

Our business depends on the success and availability of consoles, platforms and devices developed by third parties and our ability to develop and maintain commercially successful products and services for those consoles, platforms and devices.

The success of our business is driven in part by the commercial success, adequate supply and consumer adoption of third-party consoles, platforms and devices for which we develop our products and services or through which our products and services are distributed. Our success depends in part on accurately predicting which consoles, platforms and devices will be successful in the marketplace and providing engaging and commercially successful products and services for those consoles, platforms and devices. We must make product development decisions and commit significant resources well in advance of the commercial availability of new consoles, platforms and devices, and we may incur significant expense to adjust our product portfolio and development efforts in response to changing consumer preferences. We may enter into certain exclusive licensing arrangements that affect our ability to deliver or market products or services on certain consoles, platforms or devices. A console, platform or device for which we are developing products and services may not achieve consumer adoption at the rate we expect and we may be unable to fully recover the investments we have made in developing our products and services; or new consoles, platforms or devices may take market share away from those for which we have devoted significant resources, causing us to not reach our intended audience and take advantage of meaningful revenue opportunities.

We could fail to successfully adopt new business models.

From time to time we seek to establish and implement new business models. Forecasting the success of any new business model is inherently uncertain and depends on a number of factors both within and outside of our control. Our actual revenue and profit for these businesses may be significantly greater or less than our forecasts. In addition, these new business models could fail, resulting in the loss of our investment in the development and infrastructure needed to support these new business models, as well as the opportunity cost of diverting management and financial resources away from more successful and established businesses. Any failure to successfully implement new business models could materially impact our financial and operating results.

Acquisitions, investments, divestitures and other strategic transactions could result in operating difficulties and other negative consequences.

We have made and may continue to make acquisitions or enter into other strategic transactions including (1) acquisitions of companies, businesses, intellectual properties, and other assets, (2) investments in, or transactions with, strategic partners, and (3) investments in new businesses as part of our long-term business strategy. These acquisitions and other transactions involve significant challenges and risks including that the transaction does not advance our business strategy or strategic goals, that we do not realize a satisfactory return on our investment, that we cannot realize anticipated tax benefits or incur tax costs, that we acquire liabilities and/or litigation from acquired companies, that our due diligence process does not identify significant issues or liabilities, diversion of management's attention from our other businesses and the incurrence of debt, contingent liabilities or amortization expenses, write-offs of goodwill, intangibles, or acquired in-process technology, or other increased cash and non-cash expenses. In addition, we may not be able to complete the acquisition as a result of challenges in obtaining regulatory approvals or we may not integrate these businesses successfully, retain key employees from acquired companies and achieve expected synergies.

We may fund strategic transactions with (1) cash, which would reduce cash available for other corporate purposes, (2) debt, which would increase our interest expense and leverage and/or (3) equity which would dilute current shareholders' percentage ownership and also dilute our earnings per share.

We may be unable to maintain or acquire licenses to include intellectual property owned by others in our games, or to maintain or acquire the rights to publish or distribute games developed by others.

Many of our products and services are based on or incorporate intellectual property owned by others. For example, our EA SPORTS products include rights licensed from major sports leagues, teams and players' associations and our Star Wars products include rights licensed from Disney. Competition for these licenses and rights is intense. If we are unable to maintain these licenses and rights or obtain additional licenses or rights with significant commercial value, our ability to develop successful and engaging products and services may be adversely affected and our revenue, profitability and cash flows may decline significantly. Other competitors may assume certain licenses and create competing products, impacting our sales. Competition for these licenses has increased, and may continue to increase, the amounts that we must pay to licensors and developers, through higher minimum guarantees or royalty rates, which could significantly increase our costs and reduce our profitability.

Our business partners may not honor their obligations to us or their actions may put us at risk.

We rely on various business partners, including platform partners, third-party service providers, vendors, licensing partners, development partners and licensees. Their actions may put our business and our reputation and brand at risk. In many cases, our business partners may be given access to sensitive and proprietary information in order to provide services and support, and they may misappropriate our information and engage in unauthorized use of it. In addition, the failure of these third parties to provide adequate services and technologies, or the failure of the third parties to adequately maintain or update their services and technologies, could result in a disruption to our business operations. Further, disruptions in the financial markets, geopolitical conditions, economic downturns, poor business decisions, or reputational harm may adversely affect our business partners and they may not be able to continue honoring their obligations to us or we may cease our arrangements with them. Alternative arrangements and services may not be available to us on commercially reasonable terms or we may experience business interruptions upon a transition to an alternative partner or vendor.

OPERATIONAL RISKS

Catastrophic events may disrupt our business.

Catastrophic events, including natural disasters, cyber-incidents, power disruptions, pandemics, acts of terrorism or other events have caused, and in the future could cause, outages, disruptions and/or degradations of our infrastructure (including our or our partners' information technology and network systems), a failure in our ability to conduct normal business operations, or the closure of public spaces in which players engage with our products and services all of which could materially impact our reputation and brand, financial condition and operating results. The health and safety of our employees, players, third-party organizations with whom we partner, or regulatory agencies on which we rely could be also affected, any of which may prevent us from executing against our business strategies and/or cause a decrease in consumer demand for our products and services. We recognize the inherent physical risks associated with climate change. Our business relies on the reliable transmission of energy worldwide and is susceptible to weather-related events that could stress the power grid. System redundancy may be ineffective, and our disaster recovery and business continuity planning may not be sufficient for all eventualities. In addition, our corporate headquarters and several of our key studios also are located in seismically active regions and areas that are vulnerable to other natural disasters and weather events such as wildfires and hurricanes. These catastrophic events could disrupt our business and operations, and/or the businesses and operations of our partners and may cause us to incur additional costs to maintain or resume operations.

We have and may continue to experience security breaches and cyber threats.

The integrity of our and our partners' information technology networks and systems is critical to our ongoing operations, products, and services. Our industry is prone to, and our systems and networks are subject to actions by malfeasant actors, which may include individuals or groups, including state-sponsored attackers. These actions include cyber-attacks, including ransomware, and other information security incidents that seek to exploit, disable, damage, and/or disrupt our networks, business operations, products and services and supporting technological infrastructure, or gain access to consumer and employee personal information, our intellectual property and other assets. Additionally, as artificial intelligence capabilities develop rapidly, individuals or groups of hackers and sophisticated organizations, may use these technologies to create new sophisticated attack methods that are increasingly automated, targeted and coordinated and more difficult to defend against. In addition, our systems and networks could be harmed or improperly accessed due to errors by employees or third parties that are authorized to access these networks and systems. We also rely on technological infrastructure provided by third-party business partners to support the online functionality of our products and services, who are also subject to these same cyber risks. Both

our partners and we have expended, and expect to continue to expend, financial and operational resources to guard against cyber risks and to help protect our data and systems. However, the techniques used by malfeasant actors change frequently, continue to evolve in sophistication and volume, and often are not detected for long periods of time.

Remote access to our networks and systems, and the networks and systems of our partners is substantial. While we and our partners have taken steps to secure our networks and systems, these networks and systems may be more vulnerable to a successful cyber-attack or information security incident in a hybrid working model. The costs to respond to, mitigate, and/or notify affected parties of cyber-attacks and other security vulnerabilities are significant. It may also be necessary for us to take additional extraordinary measures and make additional expenditures to take appropriate responsive and preventative steps. Consequences of such events, responsive measures and preventative measures have included, and could in the future include, the loss of proprietary and personal data and interruptions or delays in our business operations, exploitation of our data, as well as loss of player confidence and damage to our brand and reputation, financial expenses and financial loss. In addition, such events could cause us to be non-compliant with applicable regulations, and subject us to legal claims or penalties under laws protecting the privacy or security of personal information or proprietary material information. We have experienced such events in the past and expect future events to occur.

In addition, the virtual economies that we have established in many of our games are subject to abuse, exploitation and other forms of fraudulent activity that can negatively impact our business. Virtual economies involve the use of virtual currency and/or virtual assets that can be used or redeemed by a player within a particular game or service. The abuse or exploitation of our virtual economies have included the illegitimate or unauthorized generation and sale of virtual items, including in black markets. Our online services have been impacted by in-game exploits and the use of automated or other fraudulent processes designed to generate virtual items or currency illegitimately or to execute account takeover attacks against our players. We anticipate such activity to continue. These abuses and exploits, and the steps that we take to address these abuses and exploits may result in a loss of anticipated revenue, increased costs to protect against or remediate these issues, interfere with players' enjoyment of a balanced game environment or cause harm to our reputation and brand.

We may experience outages, disruptions or degradations in our services, products and/or technological infrastructure.

The reliable performance of our products and services depends on the continuing operation and availability of our information technology systems and those of our external service providers, including third-party "cloud" computing services. Our games and services are complex software products and maintaining the sophisticated internal and external technological infrastructure required to reliably deliver these games and services is expensive and complicated. The reliable delivery and stability of our products and services has been, and could in the future be, adversely impacted by outages, disruptions, failures or degradations in our network and related infrastructure, as well as in the online platforms or services of key business partners that offer, support or host our products and services. The reliability and stability of our products and services has been affected by events outside of our control as well as by events within our control, such as the migration of data among data centers and to third-party hosted environments, the performance of upgrades and maintenance on our systems, and effectively scaling our technological infrastructure to accommodate online demand for our products and services.

If we or our external business partners were to experience an event that caused a significant system outage, disruption or degradation or if a transition among data centers or service providers or an upgrade or maintenance session encountered unexpected interruptions, unforeseen complexity or unplanned disruptions, our products and services may not be available to consumers or may not be delivered reliably and stably. We do not have redundancy for all our systems, many of our critical applications reside in only one of our data centers, and our disaster recovery planning may not account for all eventualities. As a result, our reputation and brand may be harmed, consumer engagement with our products and services may be reduced, and our revenue and profitability could be negatively impacted.

Attracting, managing and retaining our talent is critical to our success.

Our business depends on our ability to attract, train, motivate and retain executive, technical, creative, marketing and other talent that are essential to the development, marketing and support of our products and services. The market for highly-skilled workers and leaders in our industry is extremely competitive, particularly in the geographic locations in which many of our key talent are located. We also engage with talent through contracted services. Our leading position within the interactive entertainment industry makes us a prime target for recruiting our executives, as well as key creative and technical talent. If we cannot successfully recruit, train, motivate, attract and retain qualified talent, develop and maintain a healthy culture, replace key talent following their departure or experience disruption in our contracted services, our reputation, brand and culture may be negatively impacted, products and services may be delayed and our business will be impaired. Our global workforce is primarily non-unionized, but we have unions and works councils outside of the United States. In the United States, there has

been an increase in prominence in certain sectors of workers exercising their right to form or join a union. If significant employee populations were to unionize or if we experience labor disruptions, we could experience operational changes that may materially impact our business.

We rely on the consoles, systems and devices of partners who have significant influence over the products and services that we offer in the marketplace.

A significant percentage of our digital net revenue is attributable to sales of products and services through our significant partners, including Sony, Microsoft, Apple and Google. The concentration of a material portion of our digital sales in these partners exposes us to risks associated with these businesses and any deterioration in the businesses of our significant partners could disrupt and harm our business.

Our license agreements typically provide these partners with significant control over the approval and distribution of the products and services that we develop for their consoles, systems and devices. For products and services delivered via digital channels, each respective partner has policies and guidelines that control the promotion and distribution of these titles and the features and functionalities that we are permitted to offer through the channel. Our partners could choose to exclude our products and services from, or de-emphasize the promotion of our products and services within, some or all of their distribution channels in order to promote their own products and services or those of our competitors. In addition, we are dependent on these partners to invest in, and upgrade, the capabilities of their systems in a manner that corresponds to the preferences of consumers. Failure by these partners to keep pace with consumer preferences could have an adverse impact on the engagement with our products and services and our ability to merchandise and commercialize our products and services which could harm our business and/or financial results.

Moreover, certain significant partners can determine and change unilaterally certain key terms and conditions, including the ability to change their user and developer policies and guidelines and set the rates that we must pay to provide our products and services through their online channels, and change their fee structures or adopt different fee structures for their online channels. These partners also control the information technology systems through which online sales of our products and service are captured. If our partners establish terms that restrict our offerings, significantly impact the financial terms on which these products or services are offered to our customers, or their information technology systems experience outages that impact our players' ability to access our games or purchase extra content or cause an unanticipated delay in reporting, our business and/or financial results could be materially affected.

LEGAL AND COMPLIANCE RISKS

Government regulations applicable to us may negatively impact our business.

We are a global company subject to various and complex laws and regulations domestically and internationally, including laws and regulations related to consumer protection, protection of minors, online safety, including content moderation and transparency, advertising, information security, intellectual property, competition, sanctions, taxation and tariffs, and employment, among others. Many of these laws and regulations are continuously evolving and developing, and the application to, and impact on, us is uncertain. Enforcement of these laws could harm our business by limiting the products and services we can offer consumers or the manner in which we offer them. The costs of compliance with these laws may increase in the future as a result of changes in applicable laws or changes to interpretation. Any failure on our part to comply with these laws or the application of these laws in an unanticipated manner may harm our business and result in penalties or significant legal liability.

Certain of our business models and features within our products and services are subject to new laws or regulations or evolving interpretations and application of existing laws and regulations. The industry's adoption of virtual items and virtual currency has prompted calls for new laws and regulations and resulted in the application of existing laws or regulations that have increased scrutiny on these business models and limited or restricted the sale of our products and services in certain territories. We are integrating artificial intelligence technologies into our business and development processes, and it is possible that we could become subject to new regulations, or the interpretation of existing regulations that could negatively impact our operational and financial results. Our products and services allow players to connect with each other and create and share user-generated content. Such interactions and content may be objectionable or offensive and expose us to liability and regulatory oversight, particularly as applicable global laws and regulations are introduced and evolve. New laws related to these business models and features or the interpretation or application of current laws could subject us to additional regulation and oversight, cause us to further limit or restrict the sale of our products and services or otherwise impact our products and services, lessen the engagement with, and growth of, profitable business models, and expose us to increased compliance costs, significant liability, fines, penalties and harm to our reputation and brand.

We are subject to laws in certain foreign countries, and adhere to industry standards in the United States, that mandate rating requirements or set other restrictions on the advertisement, marketing, publication or distribution of interactive entertainment software based on content. In addition, certain foreign countries allow government censorship of interactive entertainment software products or require pre-approval processes of uncertain length before our products and services can be offered. Adoption and enforcement of ratings systems, censorship, restrictions on publication or distribution, and changes to approval processes or the status of any approvals could harm our business by limiting the products we are able to offer to our consumers. In addition, compliance with new and possibly inconsistent regulations for different territories could be costly, delay or prevent the release of our products in those territories.

We are subject to complex and prescriptive regulations, and consumer sensitivity, regarding data privacy practices.

We are subject to global data privacy, data protection, security and consumer-protection laws and regulations. These laws and regulations are emerging and evolving and the interpretation, application and enforcement of these laws and regulations often are uncertain, contradictory and changing. The failure to maintain data practices that are compliant with applicable laws and regulations, or evolving interpretations of applicable laws and regulations, could result in inquiries from enforcement agencies or direct consumer complaints, resulting in civil or criminal penalties, and could adversely impact our reputation and brand. In addition, the operational costs of compliance with these regulations is high and will likely continue to increase. Even if we remain in compliance with applicable laws and regulations, consumer sensitivity to the collection and processing of their personal information continues to increase. Any real or perceived failures in maintaining acceptable data privacy practices, including allowing improper or unauthorized access, acquisition or misuse and/or uninformed disclosure of consumer, employee and other information, or a perception that we do not adequately secure this information or provide consumers with adequate notice about the information that they authorize us to collect and disclose could result in brand, reputational, or other harms to the business, result in costly remedial measures, deter current and potential customers from using our products and services and cause our financial results to be materially affected.

Third party vendors and business partners receive access to certain information that we collect. These vendors and business partners may not prevent data security breaches with respect to the information we provide them or fully enforce our policies, contractual obligations and disclosures regarding the collection, use, storage, transfer and retention of personal data. A data security breach of one of our vendors or business partners could cause reputational and financial harm to them and us, negatively impact our ability to offer our products and services, and could result in legal liability, costly remedial measures, governmental and regulatory investigations, harm our profitability, reputation and brand, and/or cause our financial results to be materially affected.

We may be subject to claims of infringement of third-party intellectual property rights.

From time to time, third parties may claim that we have infringed their intellectual property rights. Although we take steps to avoid knowingly violating the intellectual property rights of others, it is possible that third parties still may claim infringement. Existing or future infringement claims against us may be expensive to defend and divert the attention of our employees from business operations. Such claims or litigation could require us to pay damages and other costs. We also could be required to stop selling, distributing or supporting products, features or services which incorporate the affected intellectual property rights, redesign products, features or services to avoid infringement, or obtain a license, all of which could be costly and harm our business.

In addition, many patents have been issued that may apply to potential new modes of delivering, playing or monetizing products and services such as those that we produce or would like to offer in the future. We may discover that future opportunities to provide new and innovative modes of game play and game delivery may be precluded by existing patents that we are unable to acquire or license on reasonable terms.

From time to time we may become involved in other legal proceedings.

We are currently, and from time to time in the future may become, subject to legal proceedings, claims, litigation and government investigations or inquiries, which could be expensive, lengthy, disruptive to normal business operations and occupy a significant amount of our employees' time and attention. In addition, the outcome of any legal proceedings, claims, litigation, investigations or inquiries may be difficult to predict and could have a material adverse effect on our business, reputation, operating results, or financial condition.

Our products and brands are subject to intellectual property infringement, including in jurisdictions that do not adequately protect our products and intellectual property rights.

We regard our products, brands and intellectual property as proprietary and take measures to protect our assets from infringement. We are aware that some unauthorized copying of our products and brands occurs, and if a significantly greater amount were to occur, it could negatively impact our business. Further, our products and services are available worldwide and the laws of some countries, particularly in Asia, either do not protect our products, brands and intellectual property to the same extent as the laws of the United States or are poorly enforced. Legal protection of our rights may be ineffective in countries with weaker intellectual property enforcement mechanisms. In addition, certain third parties have registered our intellectual property rights without authorization in foreign countries. Successfully registering such intellectual property rights could limit or restrict our ability to offer products and services based on such rights in those countries. Although we take steps to enforce and police our rights, our practices and methodologies may not be effective against all eventualities.

FINANCIAL RISKS

Our financial results are subject to currency and interest rate fluctuations.

International sales are a fundamental part of our business. For our fiscal year ended March 31, 2025, international net revenue comprised 59 percent of our total net revenue, and we expect our international business to continue to account for a significant portion of our total net revenue. As a result of our international sales, and also the denomination of our foreign investments and our cash and cash equivalents in foreign currencies, we are exposed to the effects of fluctuations in foreign currency exchange rates, and volatility in foreign currency exchange rates remains elevated as compared to historic levels. We use foreign currency hedging contracts to mitigate some foreign currency risk. However, these activities are limited in the protection they provide us from foreign currency fluctuations and can themselves result in losses. In addition, interest rate volatility can decrease the amount of interest earned on our cash, cash equivalents and short-term investment portfolio.

We utilize debt financing and such indebtedness could adversely impact our business and financial condition.

We have senior unsecured notes outstanding, as well as an unsecured revolving credit facility. While the facility is currently undrawn, we may use the proceeds of any future borrowings for general corporate purposes. We may also enter into other financial instruments in the future. This indebtedness and any indebtedness that we may incur in the future could affect our financial condition and future financial results by, among other things, requiring the dedication of a substantial portion of any cash flow from operations to the repayment of indebtedness and increasing our vulnerability to downturns in our business or adverse changes in general economic and industry conditions.

The agreements governing our indebtedness impose restrictions on us and require us to maintain compliance with specified covenants. In particular, the revolving credit facility requires us to maintain compliance with a debt to EBITDA ratio. Our ability to comply with these covenants may be affected by events beyond our control. If we breach any of these covenants and do not obtain a waiver from the lenders or noteholders, then, subject to applicable cure periods, our outstanding indebtedness may be declared immediately due and payable. There can be no assurance that any refinancing or additional financing would be available on terms that are favorable or acceptable to us, if at all. In addition, changes by any rating agency to our credit rating may negatively impact the value and liquidity of both our debt and equity securities, as well as the potential costs associated with new issuances or any potential refinancing of existing issuances. Downgrades in our credit rating could also restrict our ability to obtain additional financing in the future and could affect the terms of any such financing.

Changes in our tax rates or exposure to additional tax liabilities, and changes to tax laws and interpretations of tax laws could adversely affect our earnings and financial condition.

We are subject to taxes in the United States and in various foreign jurisdictions. Significant judgment is required in determining our worldwide income tax provision, tax assets, and accruals for other taxes, and the ultimate tax determination is uncertain for many transactions. Our effective income tax rate is based in part on our corporate operating structure and how we operate our business and develop, value, and use our intellectual property. Taxing authorities in jurisdictions in which we operate have challenged and audited, and may continue to, challenge and audit, our methodologies for calculating our income taxes, which could have a material impact on our effective income tax rate and cash taxes. In addition, our provision for income taxes is materially affected by our profit levels, changes in our business, changes in our geographic mix of earnings, changes in the elections we make, changes in our corporate structure, or changes in applicable accounting rules, as well as other factors.

Changes to enacted U.S. federal, state or international tax laws, as well as changes to interpretations of existing tax laws, particularly in Switzerland, where our international business is headquartered, and actions we have taken in our business with respect to such laws, have affected, and could continue to affect, our effective tax rates and cash taxes, and could cause us to change the way in which we structure our business and result in other costs. For example, the European Union and other countries, including Switzerland, have enacted or have committed to enact global minimum taxes, commonly referred to as Pillar II, as proposed by the Organization for Economic Cooperation and Development, which could impact our provision for income taxes and cash taxes. Our effective tax rate also could be adversely affected by changes in the measurement of our deferred income taxes, including the need for valuation allowances against deferred tax assets. Our valuation allowances, in turn, are impacted by several factors with respect to our business, industry, and the macroeconomic environments, including changing interest rates and tax laws. Significant judgment is involved in determining the amount of valuation allowances, and actual financial results also may differ materially from our current estimates and could have a material impact on our assessments.

We are required to pay taxes other than income taxes, such as payroll, sales, use, value-added, net worth, property, transfer, and goods and services taxes, in both the United States and foreign jurisdictions. Several foreign jurisdictions have introduced new digital services taxes on revenue of companies that provide certain digital services or expanded their interpretation of existing tax laws with regard to other non-income taxes. The guidance about the applicability of these new taxes to our business is limited and significant uncertainty exists as to what will be deemed in scope. If these foreign taxes are applied to us, it could have an adverse and material impact on our business and financial performance.

GENERAL RISKS

Our business is subject to economic, market, public health and geopolitical conditions.

Our business is subject to economic, market, public health and geopolitical conditions, which are beyond our control. The United States and other international economies have experienced cyclical downturns from time to time. Worsening economic conditions, political instability, and political developments in or around any of the countries in which we do business, particularly conditions that negatively impact discretionary consumer spending and consumer demand or increase our operating costs, including conflicts, inflation, slower growth, recession and other macroeconomic conditions have had, and could continue to have, a material adverse impact on our business and operating results. In addition, relations between the United States and countries in which we have operations and sales have been impacted by events such as immigration policies and the adoption or expansion of trade restrictions, including tariffs and economic sanctions, that may have a material impact on our operations and financial results. For example, the imposition of tariffs by the U.S. government on imported goods and any retaliatory tariffs from foreign governments could result in increased costs and uncertainty that may negatively affect global economic conditions and activity and negatively affect our business and the businesses of our partners.

We are particularly susceptible to market conditions and risks associated with the entertainment industry, which, in addition to general macroeconomic downturns, also include the popularity, price and timing of our products and services, changes in consumer demographics, the availability and popularity of other forms of entertainment, and critical reviews and public tastes and preferences, among other factors which may change rapidly and cannot necessarily be predicted.

Our stock price has been volatile and may continue to fluctuate significantly.

The market price of our common stock historically has been, and we expect will continue to be, subject to significant fluctuations. These fluctuations may be due to our operating results or factors specific to our operating results (including those discussed in the risk factors above), changes in securities analysts' estimates of our future financial performance, ratings or recommendations, the failure of our capital return programs to meet analysts' and investors' expectations, the announcement of, or speculation related to, mergers and acquisitions activity and integration of acquisitions, departure of key personnel, cyberattacks, or factors largely outside of our control including those affecting interactive gaming, entertainment, and/or technology companies generally, national or international economic conditions, investor sentiment or other factors related or unrelated to our operating performance. In particular, economic downturns may contribute to the public stock markets experiencing extreme price and trading volume volatility. These fluctuations could adversely affect the market price of our common stock.

The market price of our common stock is sensitive to our ability to forecast our financial and operating results and meet these projections and the expectations of analysts and investors. Forecasting future financial and operating results in our industry is inherently challenging, including with respect to products and services that historically have provided relatively stable financial results, such as our live services, annualized sports titles, and our console, PC and mobile catalog titles. The financial

projections we may provide to the public, any changes to those projections, or the failure to meet these projections or the expectations of analysts and investors may adversely affect the market price of our common stock.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

In May 2024, the Company’s Audit Committee, upon delegation from the Company’s Board of Directors, authorized a program to repurchase up to \$5.0 billion of our common stock. This program expires on May 9, 2027. Under this program, we may purchase stock in the open market or through privately negotiated transactions in accordance with applicable securities laws, including pursuant to pre-arranged stock trading plans. The timing and actual amount of the stock repurchases will depend on several factors including price, capital availability, regulatory requirements, alternative investment opportunities and other market conditions. We are not obligated to repurchase a specific number of shares of our common stock under this program and it may be modified, suspended or discontinued at any time. We are actively repurchasing shares under this program.

The following table summarizes the number of shares repurchased during the three months ended June 30, 2025:

Fiscal Month	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Programs	Maximum Dollar Value that May Still Be Purchased Under the Programs (in millions)
March 30, 2025 - April 26, 2025				
Accelerated share repurchases ⁽¹⁾	436,693	\$ —	436,693	\$ —
Open market share repurchases	807,854	\$ 142.24	807,854	\$ 2,537
April 27, 2025 - May 24, 2025	805,982	\$ 150.09	805,982	\$ 2,417
May 25, 2025 - June 28, 2025	933,455	\$ 149.03	933,455	\$ 2,277
	<u>2,983,984</u>		<u>2,983,984</u>	

⁽¹⁾We received and retired 0.4 million shares during the three months ended June 30, 2025 to settle the ASR agreement. In total, we repurchased 7.4 million shares at an average price of \$135.05 under the ASR agreement.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

Rule 10b5-1 Plans

During the three months ended June 30, 2025, the following EA directors and/or officers entered into trading plans intended to satisfy the requirements of Rule 10b5-1(c) of the Exchange Act as part of managing their EA equity holdings (“10b5-1 Plan”).

- On May 13, 2025, Jacob J. Schatz, EA’s EVP of Global Affairs, Chief Legal Officer and Corporate Secretary, adopted a 10b5-1 Plan. Up to an aggregate 14,400 shares of our common stock may be sold under this plan with sales occurring periodically from the estimated selling start date of August 15, 2025 through July 31, 2026.
- On May 28, 2025, Mala Singh, EA’s Chief People Officer, adopted a 10b5-1 Plan. Up to an aggregate 15,600 shares of our common stock may be sold under this plan with sales occurring periodically from the estimated selling start date of August 27, 2025 through July 31, 2026.
- On May 29, 2025, Stuart Canfield, EA’s Chief Financial Officer, adopted a 10b5-1 Plan. Up to an aggregate 10,000 shares of our common stock may be sold under this plan with sales occurring periodically from the estimated selling start date of September 2, 2025 through August 31, 2026. Mr. Canfield’s 10b5-1 Plan also provides for the sale of an amount of shares of our common stock to be determined to satisfy tax withholding obligations arising from the vesting of various EA equity awards.

Item 6. Exhibits

The exhibits listed in the accompanying index to exhibits on Page 56 are filed or incorporated by reference as part of this report.

ELECTRONIC ARTS INC.**Certification of Chief Executive Officer
Pursuant to Rule 13a-14(a) of the Exchange Act
As Adopted Pursuant to
Section 302 of the Sarbanes-Oxley Act of 2002**

I, Andrew Wilson, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Electronic Arts Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
